STEEL

The Metalworking Management Weekly

EDITORIAL INDEX

VOLUME 164

January 1 to June 30, 1969

Subject Index 3

Company Index 14

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Abrasives: See Grinding, Polishing

Adaptive Control: See Numerical Controls

Adhesives: See Joining

Advertising Index:
Help wanted index, NICB, 2/10, p.13; 5/5, p.20; 6/9, p.22

Aerospace:
1968 U. S. aerospace firsts—a win or a loss? Russia wins SST race with TU-144, 1/13, p.10
Aerospace industry in bind: Squeezed between more fixed price contracts and more comprehensive guarantees, 3/10, p.19
Aerospace selects technology targets: Less federal funding and more complex production, 3/17, p.50
All-metal seals in precision aerospace hydraulic systems, 1/6, p.100e*
Aluminum casting alloy KO-1, new high strength material, 6/2, p.72h*
Automated tooling accelerates, 6/9, p.23
Boeing's new approaches for forming titanium airframe components, 5/12, p.32a*
Continuous cast metal composites for aerospace, GTC method, 3/31, p.24d*
NASA's Mississippi Test Facility (Rocket engines tested for space vehicles): Steel called on to contain 'Furies', 2/17, p.73
Plastic stretch dies shape aircraft skins, 2/24, p.38
What aerospace will need from machine tool builders: Lockheed's Monesmith, 4/14, p.41

Africa (South):
A target of 8.7 million tons of steel by 1980 (Iscor), 2/17, p.29
Pickands Mather exploration rights to ore in Ivory Coast, 1/13, p.16
South Africa plots industrial growth, 3/3, p.23

Air Conditioning Industry:
Industry sales up, report of Roberts, Borg-Warner, 1/6, p.100q*
Gains to continue asserts Balthrop, Airtemp president, 1/20, p.21
Industry report: Blazing business of keeping cool, 6/2, p.46

Aircraft:
AF seeking nine month plane reorder leadtime, 3/31, p.56d*
Aircraft parts diffusion bonded, Sundstrand, 4/28, p.52
C-5 giant, landing supported by a 'bogie beam', 6/23, p.48
F-5 fighter aircraft tested for boron landing gear door, 1/27, p.22
Fastener dev by SPS, stress pin shear fastener, 4/7, p.18
Helicopter, industrial usage (Vietnam technology), 2/3, p.45
Helicopter flies on EB welded rotor (Cheyenne), 5/19, p.36n*
Helicopter tail rotor blades use boron and glass epoxy, Sikorsky, 6/23, p.25
Hovercraft skimming 10 ft above water, New York to London: Lewis Research forecast, 6/9, p.24
Jet noise abated by use of perforated stainless sheet steel, 2/10, p.31
Jet engines quieter for commercial subsonic, NASA tests, 3/10, p.27
Landing gear subcontracts for Lockheed's L-1011 parceled out, some to England, 3/24, p.17
Lockheed extrudes-machines wing panels, 1/27, p.44
Plastics big in future aircraft, 3/17, p.25
Short haul air transport would aid airport problems, air congestion; contended by Prof. Miller, MIT, 6/2, p.72q*

Air Cushion:
Auto of future, tracked air cushion vehicle, 5/19, p.31
Grumman designs a tracked air cushion vehicle, 6/23, p.29

Air Force:
Metalworking Technology Conference, 3/10, p.19
Reorder leadtime of 9 to 12 months for sophisticated aircraft under study: Col. Downer reports, 3/31, p.56d*
See also Wright-Patterson AFB

Air Freight:
Jet freighters for '75, twice the size: Studies at Stanford, 1/13, p.13

Air Pollution:
Air pollution spending by industry types: Predicasts breakdown for seven industries (1958-1977), 2/3, p.38
Foundries forced out of business by high costs of controls: Workman report, 3/31, p.20
Maverick's fuel evaporative emission control system, 4/7, p.16
Precipitair system cuts down sulfur dioxide (SO_2) content in flue gases, 6/2, p.25
Smog doesn't deter auto sales, 3/24, p.15
State regions: Fed regulations timetable signal to control deadline, 3/17, p.29

Airport:
Time-lapse airport photo reflects pulse of today's electronic, supersonic world (cover pic), 5/5

Alloys:
Alloy 7175, high strength for aluminum forgings, Alcoa, 1/6, p.100n*
Alloy IN-738 offers high strength, Inco, 1/6, p.100r*
Aluminum alloy challenges copper, electrical applications, 4/14, p.29
Aluminum Babbitt alloy cuts bearings costs in auto engines, 2/3, p.20
Aluminum-calcide alloy, Union Carbide, better properties in deoxidized steels, 5/5, p.48q*
Aluminum casting alloy KO-1 studied by aerospace, marine firms, 6/2, p.72h*
Copper alloy PD-135 in wire form landed on moon, 4/14, p.27
Copper alloys studied for auto brake drums, 6/16, p.20
Low melting point alloys, growing market forecast by Becker, Cerro Copper, 2/24, p.44a
Vacuum melted alloys facility, 2/3, p.57
See also Steel Alloys

Aluminum Industry:
Aluminum extrusion markets, bright forecast, 3/31, p.63
Aluminum ingot price jump foreseen by Ready at Kaiser Alum., 5/1?, p.25
Aluminum shipments growth rate, 4/7, p.17; 5/12, p.21; 6/16, p.51
Aluminum's use in plate fabricating expands, 5/19, p.72p*
Discounting off list price by producers to end, 5/5, p.19
Solder coated aluminum 'goofproofs' joining, 2/10, p.56c*

Aluminum Plants:
Australian producers push expansions, 4/7, p.24d
English 100,000 ton aluminum reduction plant under construction, 3/17, p.27
English plant to extrude, process and fabricate aluminum architectural and structural products, joint venture with Amax, 3/17, p.25
New Zealand lays solid base for industry, 1/27, p.52f*

American Association of Industrial Management:
12 tips for managers: Persuasion is modern muscle, presenting programs to employees, 6/23, p.47
Checklist on cutting down on waste: Top management can control costs, 4/28, p.124d*

American Gas Association:
Develops glass 'lid' cuts metal losses in melting, 5/26, p.25

American Institute of Steel Construction:
Forecast of first six months booking and shipments, 2/24, p.52

American Iron & Steel Institute:
Design Responsibility Seminar, 3/17, p.21
Design seminar: Liability lawyer warns—sell safety, 3/24, p.13
Push for quota legislation, waiting for Nixon, 1/27, p.17
Roche: Is steel import picture a mirage? 4/28, p.25
Speakers at annual meeting: Wiebel (U. S. Steel) and Verity (Armco), 5/26, p.30 and 31
Stinson, new chairman: Steelmaking investment is paying dividends, 5/26, p.29

American Machine Tool Distributors' Assn.:
Hoffman: Can distributor contracts be canceled too easily? 1/27, p.33
Meeting in Nassau: Foreign builders 'more realistic': Hoffman, 3/31, p.15

American Management Association:
Meeting speaker (Sullivan, Walter Kidde): Conglomerate mergers—government vs. industry, 6/23, p.23

American Society of Mechanical Engineers:
Gas turbine conference, Cleveland, 3/17, p.23

American Statistical Association:
Forecasting conference, Chicago: 2nd half economic slowdown, 6/30, p.5 and 13

American Welding Society:
Annual expo: Refinements in art of joining metals via welding, 4/28, p.29

Ammonia: See Pickle Liquor

Annealing: See Heat Treating & Annealing

Antitrust: See Government

Appliance Industry:
Appliance sales good, gas and electric, 3/10, p.79
Single set of safety standards needed, Whiripool safety dir. urges, 6/2, p.23
Small appliance imports a threat, 6/23, p.32

Appliance Warranties:
Challenge to industry (Betty Furness): Clean up your service mess, 1/27, p.36

Argonne National Laboratory:
Subzero coolants for machining the exotics: Cold machining tungsten and other refractory metals, 3/10, p.49

Army:
Helicopter (Cheyenne) has EB welded rotor, 5/19, p.36n*
Mechanical monster, trucks supplies where there are no roads, 4/14, p.21

Asia:
Asian steel market growth plotted by Japanese government, 5/12, p.27

Associated General Contractors of America:
Arbitration urged to slow wages, Halvorson report, 6/2, p.21

Association of American Railroads:
R&D for rail travel improvements, 4/14, p.21

Astralloy: See Steel Alloys

Atomic Energy:
AEC-Argonne Lab: Superconducting magnet for research scientists, 2/10, p.56b*
Reactor fuels yield promethium, 2/10, p.17
Using a 'two-beam' electron microscope, scientists can almost see atoms, 1/13, p.13
X-rays and TV team to show atoms in motion: Dr. Green, Johns Hopkins, 2/10, p.40c*

Audit Rating:
A. O. Smith's president tells—how to win the rating game, 3/10, p.43

Australia:
Alumina complex to be built by Amax, 3/24, p.13
Aluminum refinery planned by consortium, 6/2, p.29
Aluminum producers push expansions (Alcoa, Alcan), 4/7, p.24d
Aussies get U. S. subcontracts, 1/20, p.21
Blasting harbors into existence, new approach to port facilities, 2/24 p.24
Broken Hill expands steelworks, 4/28, p.25
Canadian group to establish a tantalite industry, 1/13, p.16
Copper mining project okayed, Papua-New Guinea, 2/24, p.20
Finances needed to develop mineral industry's growth, 3/10, p.25
Foreign capital need, 6/2, p.21
Government initiative to dev. natural resources, 3/17, p.27
Ilmenite (beach sand mineral) converts to synthetic rutile pilot plant at Murphyores Inc., and Commonwealth, 3/10, p.52g*
Mt. Isa copper-lead-zinc mine near production goals, pic, 4/7, p.52f
Mt. Isa ore find, 6/16, p.60d
Nickel production greatest in world, claim of Aussie mining engineers, 5/12, p.52r*
Queensland Aluminum expands output, 6/23, p.29
Steel plant planned in Victoria, British firm, 6/9, p.24

AutoForge: See Forging

Automation:
Automated foundry casts 180 tons per hour, Link-Belt, 4/14, p.71
Automated manufacturing systems makes hypoid pinion gears faster at Gleason, 1/20, p.47
Automated tooling accelerates for aerospace, 6/9, p.23

Automotive:
1969 (remaining nine months) outlook good: Detroit's hot in spite of things, 4/7, p.9
1969 Debut (midyear) of new cars: Performance, pizzazz spark market, 6/23, p.13
Air pollution: Detroit says smog is licked (Chrysler, GM statements), 6/30, p.7
Alcan sets sights on Detroit: Sheet products, Analok permanent color, precut blanks, etc., 5/5, p.15
Aluminum may glisten in Detroit: Reynolds aluminum steering wheel for sport car, and Alcoa's method of fabricating aluminum radiators, 3/31, p.9
Autodom launches an offensive: Knudsen addresses SAE, 1/27, p.11

Auto inventories climb: How deep will production cuts be? 2/3, p.9
Auto racer of stainless steel, Armco, 2/24, p.17
Automakers introduce new name tags: Model proliferation — or prostitution? 3/3, p.11
Automatic manufacturing - assembly system (Cross): Disc brakes at 1,600 per hour at Chevy's Saginaw plant, 3/10, p.56
Buick computer boosts uptime, output, valve body machining line at Flint, 3/24, p.7
Buick slashes downtime as — it probes chip conveyors, 5/5, p.43
Cadillac—sweet smell of success: Werner's forecast, 6/9, p.13
Coated steels turn in star performance, 1/20, p.29
Composite strip rolls up savings for auto trim, Allegheny Composite Corp., 5/19, p.62†
Chrome plated plastic auto grille, GM cars, 3/17, p.25
Computerized manufacturing report: SAE speaker — Ording from Ford, 1/20, p.15
Czechs boost auto output, 1/20, p.21
Dual metal brightwork - molding trim costs (stainless over galvanized), 6/30, p.14
EB welding grows, 4/21, p.29
Electrocoating enters new growth era: Primer is creation of Spencer Kellogg Div.; also modular power package of Controlled Power Corp., 3/10, p.13
Electronic fuel injection for Lincoln, 3/17, p.25
Fiat cars, Verson forms tricky, bent-arm steering shaft, 6/2, p.57†
Ford Maverick: Will $1,995 U. S. car really sell? 4/14, p.13
Ford to use stretch forming (Wallace Expanding Co.) for Galaxies and Mustangs, 2/24, p.19
Foreign carbuilders seek unity, merger trend, 3/17, p.13
Foreign carmakers welcome Maverick, 4/14, p.21
GM executive changes ahead (Estes, DeLorean, McDonald), retirements due, 2/17, p.13
GM: One less fender to bend—cutaway views of 511 commuter car, Chevrolet's Astro III, Pontiac tricycle car, 6/16, p.9
Galvanized steel usage, 1/20, p.29
Gas turbine auto, views of German expert (Eckert, Damler-Benz), 1/6, p.100d*
Gasoline engines here to stay? GM-Cole reports, 5/19, p.15
Minicar plans and maxispending, 1/6, p.13
Minicars—automakers assess new approaches (materials, engineering, engines), 2/24, p.9
Plastics center opened by GE in Detroit, 5/12, p.27
Quality control programs: At GM, SPEAR; at Ford, Control Item, aimed at suppliers, 1/20, p.7
Safety rules, state and federal regulations clash (three Eastern cases), Chrysler wins case on SuperLite, 4/2, p.13
Stamping men get report on Verson's new transfer press shipped to Citroen, 4/21, p.36
Steam car boost from space dev., a closed hydroloop, 4/21, p.24
TACRV (tracked air cushion vehicle) auto of future, 5/19, p.31
Transportation systems, costs compared (chart): Engineers plot "a way out", 1/13, p.7
Truck sales high, 5/12, p.13
Turbine age begins: Mid-1971, 2/10, p.7
Turbines—that's where the action is, gas turbine trucks, 6/2, p.13
UAW sets its strategy: International Skilled Trades Conference on new technology, 4/28, p.13
Vendors (GM) to feel SPEAR's point, quality control, 1/20, p.7
Volkswagen: Made (partly) in U. S. A., 5/26, p.15
Windshield guidance signals, mirrors, 2/10, p.15

B

Baker Case: See Managing for Productivity

Balance of Payments:
Problems still plague U. S.: Commerce Sec'y Stans, Trade representative William Roth report, 3/10, p.36

Balance of Trade:
U. S. trade balance concern, possible slowdown of domestic business, 3/17, p.7

Baling:
Baling aluminum scrap for Michigan Foundry, Hayliner, 1/13, p.12

Bars:
Gleason sets par for bars, system rates vendors who supply high speed tool steel for cutter blades, 3/17, p.44

Basic Structures Case: See Managing for Productivity

Battelle Memorial Institute:
Bonding tips for coil coaters, 4/7, p.17
Dr. Faust: Pollution control colors platers' water decisions, 6/16, p.52
Hydrostatic extrusion report, 2/24, p.26
Mary Hoskins: Weigh metrology's magic to measure more profits, 6/2, p.55
Reactor fuels yield promethium, 2/10, p.17

Bearings Industry:
Industry report, staggering problems, 5/26, p.60

Bearings, Bushings:
EB melted steels upgrade bearings, 1/20, p.19
Dow cleans bearings with boiling tech., 3/31, p.24f*
Huge tapered roller bearings for Timken foreign mills, 1/6, p.100e
Multirow bearing ups gear shaping speed, 1/6, p.100n*

Belgium:
Steelmakers merger underway, 5/5, p.24

Black Workers: See Negroes

Blast Furnaces:
J&L researches unpredictable behavior inside blast furnaces, 2/17, p.25
U. S. Steel-South Wks., hangs furnace inside trestle-like four poster structure, 4/21, p.21
See also Steelmaking

Blasting: See Cleaning, Blasting

Bonding: See Joining

Boron:
Film type boron composite at Norton, stiffness and strength aid in fabrication, 4/7, p.52f

Brazing:
Automatic brazing machine at Dexter for brass fittings, 1/27, p.52g*
Furnace brazing in dry-air atmosphere, low cost production of aluminum radiators, 1/20, p.11
Fusion Inc. heats joint parts evenly, 5/5, p.52

British Iron & Steel Research Assn.:
Argon lance takes melt samples, 4/21, p.22

British Non-Ferrous Metals Research Assn.:
Computer controlled diecasting studied, 4/7, p.15

Building Construction Industry:
Building trades 'sticking public', wage demands, 6/16, p.17
Sheet steel to replace reinforcing bars in concrete, Haifa, Israel, 4/7, p.18
Structural steel framing in apartments increase, 2/10, p.47
World Trade Center: Zinc ribbons keep tiebacks tight, walls support, 2/3, p.59

Bureau of National Affairs Inc.:
Survey: Union contracts stipulate paid vacations, 3/24, p.15
Wage increases, all industries, up, 1/27, p.21

Business & Defense Services Adm.:
Nonmanufacturing sectors to grow fastest in 1969, 1/13, p.18

Business (Economy):
1969: What will happen to capital spending, 1/27, p.7
1969 forecast, (Sommers, economist, NICB), 1/13, p.5
1969 forecast (Sommers, economist), 1/20, p.19
1969-2nd half, slowdown may hit profits fast: NICB and Commerce speakers, 6/30, p.5
2nd half economic slowdown, how it will hit industry, 6/30, p.13
Banks boost interest rates—water or fuel on inflation fire? 3/24, p.11
Barometers of business for '69, AGMA and MHII, 1/13, p.12
Barometers of business, 1/27, p.19
BDSA forecast: How industries will grow in '69—nonmanufacturing sectors fastest, 1/13, p.18
Business changes since 1960 (when Nixon left), 1/20, p.5
Businessmen ask—high production or a slowdown—at home plate 6/23, p.7
Capital spending slowdown due to FRB pressure on inflation, 3/10, p.7
Capital appropriations taper off, NICB survey, 6/9, p.19
Consumer shows optimism, NICB survey, 6/2, p.7
Consumer spending, midyear forecast, 6/30, p.6
Economic brakes are on, how top economist sees the year, 5/26, p.19
Financial executives (Chicago bank) forecast business this year in five business sectors, 5/19, p.7
Gradualists could win this round, FRB gradual restrictions add up to 9% interest rate for borrowers, 4/28, p.7
Growth rate for U. S. economy spells good news: Armco's Robertson, 6/9, p.22
High employment without runaway inflation—hope of Labor Sec'y Shultz, 3/3, p.43
Inflation controls, enough restraint now (Chartener, asst. sec'y of commerce), 5/19, p.25
Inflation: Nothing to fear but lack of fear, 6/16, p.7
Inventory buildup, 2/3, p.5
Inventories-shipments ratio, could mean slowdown in economy, 6/9, p.7
Manufacturing—long on plant, short on people (rate of unemployment), 2/17, p.7
Metalworking profits, '68, 2/24, p.5
Metalworking, 1st quarter results from 70 metalworkers, 5/12, p.7
Metalworking, what managers expect in 2nd half, 6/9, p.33
Peace would quiet business front, 4/21, p.7
Retail seesaw keeps outlook in air, 3/24, p.5
STEEL's Panel of Economic consultants — semiannual survey, 4/21, p.33
Steel Panel's forecasts adjust to higher prices, 4/14, p.14
Steel profit coverup: Better figures for '68, 2/10, p.5
Steelmakers, 1st quarter profits off 28%, 5/12, p.29
Tight money beats 10% surtax: Dr. Sprinkel, bank economist, 4/21, p.21
Tight money: Buy now, pay later and later, 6/23, p.30

Business Failures:
Liabilities growing in business failures, Dun & Bradstreet report, 6/23, p.31

Business-Government:
Government and business must work together: Roche (GM) addresses Illinois Mfgrs. Assn., 1/6, p.48k*

Business Machines:
Industry report and Commerce-export, import categories, 4/21, p.60

Buy American:
Connecticut bill to prohibit purchasing foreign products coming, 5/5, p.21

C

CPM: See Management Systems

Canada:
Building market boom, 5/26, p.27
Capital spending to favor use of sheet steel materials, 1/13, p.16
Dampens inflation, 6/30, p.11
Tax problems worry Canadian mining industry, 5/19, p.31

Cans, Canmaking:
Air-4 multistation die gets the lids out (easy-open can tops), 4/28, p.124a*

Capital Expenditures:
As prime rate soars—when will capital spending stumble? 6/16, p.15
Capital spending slow down, FRB pressure on inflation, 3/10, p.7
Capital spending high through 1st quarter, NICB surveys 1,000 manufacturers, 3/10, p.19
Capital spending forecast, Commerce Dept. survey, 3/24, p.11
Steelmakers' spending sets record pace, '69-'68 comparisons, 2/17, p.39

Case Western Reserve University:
Dr. Grundstein (Cleveland seminar): Black managers push 'green power', 2/3, p.22
Dr. Herzberg: How to turn your men on (management seminar), 6/16, p.26
Negro supervisory training program, 1/20, p.13

Casting, Castings:
Additions of copper to cast iron for engine blocks, 1/20, p.19
Automated foundry casts 180 tons per hour, Link-Belt nodular iron foundry, 4/14, p.71
Cast forging dies, 6/2, p.32r*
Castings for British machine tool construction, Cincinnati Milling's Tamworth foundry features umbrella roof and barrel vault ceiling, 3/24, p.30
Combined processes (centrifugal casting and static casting) produce assemblies by Canadian firms, 2/17, p.47
Continuous casting yields cheaper composites, making preform shapes (rods, tubes, etc.) of boron reinforced magnesium, at General Technologies, 3/31, p.24d*
Continuous casting: Quality plus for steel users: Wiebel details Gary Works at AISI meeting, 5/26, p.30
Continuous slab caster, Gary Wks., features revealed by U. S. Steel, 6/2, p.50
Continuous slab caster unveiled at Gary Works, 1/20, p.27
Continuous-continuous slab caster pays off at U. S. Steel's Gary Wks., 4/14, p.19
Continuous - continuous casting unit at Florida Steel, 5/5, p.32b*
Full mold process, involves use of polystyrene patterns, 6/16, p.44b*
Gray iron casting, record shipments, 1/20, p.63
Investment casting, analysis of alloys, 4/21, p.23
Investment casting developments, ASTME speaker's report, 5/5, p.23
Minicast process to produce small intricate parts: plastic patterns solve machining problem, 1/6, p.100
Squeezing gives cast steel forging strengths — what casting does to stainless steel, 5/5, p.44
Ultrathin castings with Precial technique, claim of French foundry, 3/17, p.49

Ceramic Foam: See Insulation

Ceramics:
Ceramic parts injection molded, South Wales plant, 4/28, p.29

Chamber of Commerce:
Dr. Madden: Midyear outlook, 6/30, p.5

Charts:
Ford's specs: Steels for stamping dies, 2/10, p.29

Chemical Milling:
Job shops using process have sales increase reports Spear (Eastman Kodak): Chemical milling gains acceptance, 3/21, p.46
Special etchant dev. for chem mill of titanium components, Martin Marietta, 5/19, p.30

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

Chemicals:
Chemical reactions visible via EPR, electron parmagnetic resonance, 3/10, p.72j*
Napalm: Dow defends its decision, 1/20, p.43

Chip Processing:
Buick controlled monitoring system—downtime slashed as Buick 'probes' chip conveyors, 5/5, p.43
Chip processing and oil reclamation system, Eaton, 2/17, p.88g*

Cleaning, Blasting:
Dow's nucleate boil technique blasts parts clean, 3/31, p.24f*

Cleaning System:
Ultrasonic cleaner for jet oil filters, 1/27, p.52e*

Cleveland:
Stokes mixes in union politics, 2/10, p.15
Water pollution abatement program headed by Dr. Martin, 4/28, p.124b*

Coated Steels:
STEEL Feature: Coated steels turn in star performance, galvanizing lines, 1/20, p.29

Coil:
Moving coiled steel by rail via integral cover cars, 3/3, p.21

Coil Coating:
Glidden coats coils with flexible enamel, 2/10, p.36
Roll Coater's 60 in. coil coating line, 3/24, p.17
Yawata two-coat process, electrocoated primer, 3/24, p.16

Colleges:
College talent recruiters should push challenge in jobs: Dr. Brooks (Cornell), 1/20, p.19

Communications: See Video Tape

Company Growth:
Conglomerate company lives on growth: Walter Kidde & Co. (Brown) report, 3/24, p.19

Company Operations:
Colt's turnabout gains momentum, 2/10, p.23
Pyronics: Equipment maker borrows consumer goods approach, 2/17, p.67
South Bend Lathe: Lathemaker shapes its future (goal is to introduce one new product a year), 4/14, p.63
U. S. Steel—new image shaping (Speer, new president), 2/10, p.22

Component Industry:
1st quarter inventory, 2/3, p.67
2nd quarter inventories, 5/19, p.80

Composites:
Boron composite-film type dev. at Norton, 4/7, p.52f
Boron and glass fiber reinforced epoxy used in tail rotor blades, Sikorsky helicopter, 6/23, p.25
Composite made with a boom, layers of copper foil and tungsten wires explode into composite material, England, 1/27, p.23
Composites: Tomorrow's machine tool materials? Brown & Sharpe's Validator — measuring machine, 3/17, p.35
Continuous casting yields metal matrix composites cheaper, 3/31, p.24d*
Graphite fibers bonded weakly to ceramic, toughens composite, 4/28, p.27
Solar 'flash' bonds composite, diffusion bond joins boron filaments in a matrix of titanium, 1/20, p.38* and 3/3, p.46†
Steel and asbestos fibers studied for reinforcing materials for thin shell structures, 1/27, p.23
Urethane foam - aluminum composite applied to metal sheets, 6/30, p.14

Compressed Air:
Buick tests engines with air during assembly, 3/17, p.23

Computerized Factories:
K&T president foresees computerized factories, 2/10, p.15

Computer Terminal:
Diebold Group study: Computer terminal costs to drop, 6/23, p.32

Computers, Data Processing:
(see also Steel Mill Controls)
Automakers on threshold in computerized manufacturing, 1/20, p.15
BLH Standard Steel: Fast, accurate quotes build better business, computer printout, 1/13, p.28

Audit rating system used at A. O. Smith Corp., 3/10, p.43

Finishes, Coatings, Paints:
Carbide coat wearproofs metals, Carmet Div., 4/7, p.45†
Ceramic coatings by electrophoretic deposition, 3/10, p.26
Coil coated with flexible enamel at Glidden, 2/10, p.36
Coil coating process, two-coat, electrocoating for the primer, Japan, 3/24, p.16
Electrocoating process (Color-Grip), Armco, 6/16, p.24
Electrostatic paint-coating system, cost cutting at Fisher & Co., 6/2, p.32f*
Plasma plating at Union Carbide Coatings Service plant, 1/13, p.56c*
Rust preventive on metal coils, plastic impregnated wrap, 4/28, p.124f*
Sputter coating, 3/10, p.39
Titanium carbide coat for extrusion dies, 2/24, p.44e

Fluid Power:
Association speaker (Dr. Solomon): Double your growth in 1970s, 4/21, p.19

Fluidics: See Instruments & Controls

Fordham University:
Fr. Hogan: Depreciation reform is must, 4/28, p.21
Fr. Hogan: Technological transformation in U. S. steel industry, developments and capital improvements, 5/19, p.40

Foreign Competition:
Italian metal producers challenge U. S. duties, 6/30, p.12
Steel import bill (Hartke, Dirksen turnabout), will co-sponsor bill, 2/17, p.21
Steel import bill, voluntary restraints not enough (Sen. Hartke), 2/24, p.16
Steel imports less problem due to world demand: Gott, U. S. Steel remarks, 6/9, p.19
Voluntary steel quotas—real test coming, 1/20, p.11
Voluntary move will stall action, Nixon key to quota hopes, 1/27, p.17

Foreign Investments:
Balance of payments problems hinder foreign investments: Commerce Sec'y Stans report to Economic Committee, 3/10, p.36
Dr. Rolfe (economist): International ventures pose 'balanced risk', 5/26, p.27
Factoring (financing) for foreign sales, 3/24, p.13
Foreign direct investment curbs under fire again in House: MAPI (Stewart) and others want to abolish curbs, 4/7, p.22
Plant and equipment outlays up, Commerce Dept. report, 4/7, p.19
U. S. foreign investment controls hit small businesses, 3/24, p.19

Foreign Markets:
Are you missing out? Size not prerequisite for marketing abroad, 1/13, p.35
Chesterton Packing: Foreign salesmen get sales course in Rome, 5/5, p.48q*
Czech machine importer sees sales expanding (Simmons), 1/27, p.41
Japanese more international, move on Asian, African markets, 1/13, p.11
Key to successful overseas manufacturing: Beck (GE), 6/2, p.60
NICB survey: Trend toward production abroad, 3/24, p.19
Tax value added (as in Europe) aid to manufacturers for foreign markets, 5/19, p.37

Foreign Trade:
Between East and West . . . Forces gather in Congress to break trade shackles (metalworking trendline), 3/31, p.25
East-West trade will grow over long term: Austrian meeting (Vienna) discussions (sponsored by Stanford Research Inst.), 1/6, p.100e*
Data export controls, MAPI reports, 3/10, p.32d*
Exporters to Germany optimistic, 3/31, p.21
French quota of steel exports to U. S. being set, 2/10, p.47
Import quotas faced by ECAT (founded by David Rockefeller), Nixon Adm., 1/13, p.11
Italian steel imports subject to countervailing duties, Bureau of Customs report, 5/12, p.25
Nontariff barriers: NTBs stand taller as tariffs tumble (STEEL Feature), 4/7, p.25
Steel import quotas denounced by West Coast importers, 1/13, p.11
U. S. foreign trade feels aftereffect of longshoreman's strike, 6/9, p.22

Foreign Steel:
Users of foreign steel feel pinch of quotas, 5/19, p.23

Forging, Forgings:
AutoForge produces precision parts at TMW: Molten metal to forgings on automatic machine, 3/17, p.31
Cast forging dies, cost cutting, 6/2, p.32r*
Die forging for short runs, Czech engineer report, 3/31, p.20
Liquid metal forging (or squeeze casting), new strength to stainless and superalloys, 5/5, p.44
Lubricants used in plants (studies), 3/3, p.32
Rotary forge made by Austrian firm for Revere, tubes made in variety of shapes, 2/10, p.17
Rotary forge at Revere is versatile, 2/17, p.88d*

Forming, Bending:
Bending of tubular metals by hot or cold methods at Bozung, machine built by Pines, 2/24, p.44b
Boeing's new approaches for titanium forming airframe components, 5/12, p.32a*
British (PERA) push warm forming, 2/10, p.17
Hydrostatic metal forming methods, Western Electric, 2/24, p.25
Photoforming process forms thin parts, 4/14, p.70
Stretch forming aimed at auto market (Wallace Expanding) dev. for Ford, 2/24, p.19
Stretch forming press lengthens 40 ft sheet of aluminum to 44 ft, 4/14, p.25
Superform, new cold drawing process, 2/24, p.18
Verson bends arms for Fiat steering shaft, 6/2, p.57†
Warm forming for pinion blanks at GM's Hydra-Matic Div., 1/13, p.56a*

Founders' Society of America:
Castings industry upswing, 1/20, p.61

Foundries:
Cincinnati Milling builds bilevel foundry in Britain, 3/24, p.30
French foundry claims ultrathin castings, 3/17, p.49
Full mold process, involves use of polystyrene patterns instead of wood, 6/16, p.44b*
Link-Belt nodular iron foundry: Automated foundry casts 180 tons per hour, 4/14, p.70
Zirconia abrasive in grinding wheel used in a foundry cuts costs, 2/24, p.44c

Hard-Core: See Training

Harvard University:
Prof. Chamberlain: Manpower upgrading is industry's burden, 6/2, p.72f*
Prof. Smith, Business School: Foreign trade competition, rebates on exports and charges on imports would aid, 5/19, p.39

Health & Safety:
Government contractors head for compliance with tougher safety and health standards (fire, radiation, noise, etc.), 1/27, p.19
Postponement of revisions to health and safety standards under Walsh-Healey Public Contracts Act, 2/24, p.24

Heat Transfer:
Hollow tubes in spiral pattern make circulation of heat transfer fluids within pipe wall, 6/9, p.48d*

Heat Treaters:
Curves for heat treaters: Paste these in your hat (STEEL Feature), 6/23, p.33
Heat treat equipment turning corner in '70, industry report, 6/23, p.67

Heat Treating & Annealing:
Almar maraging steel used when heat treating plastic injection molds, 1/6, p.100j*
Armco gets continuous annealcoating line (electrical steels) from Production Machinery: 'Pinpoint' design boosts line's productivity, 3/3, p.56f* and 4/7, p.48†
Ford banks on sure fire coil annealing, Steering Gear Dept., furnace built by Sunbeam, 5/5, p.48d*
Mechanized quench heat treats computer parts, 2/24, p.44c
Oil-vacuum furnace: Door to creative heat treating, dev. by Hayes Inc., used at Chandler Evans, 4/7, p.46
Stainless steel wrap shields heat treated parts, 4/14, p.70
Steelmakers ponder—make or buy annealing gas? 4/14, p.56

Helicopters: See Aircraft

Highway Research Board:
Meeting: Report on total cost bidding for equipment, 2/3, p.15; 2/10, p.9

Histograms:
Digital data sorter tests for preparing histograms, 5/26, p.26

Holography:
Holograms reveal turbine blade defects, 5/19, p.30
Holograph stores 150,000 English words in small area, IBM, 6/2, p.25
Holography gages cylinder bores, British source, 5/26, p.25
IBM processing techniques improve holograms, 3/31, p.20
Internal flaws in tires detected, 1/20, p.19

Housing:
'69 housing starts forecast, 2/3, p.18
Business trend—from oversupply to overdemand, 3/3, p.7
Era of innovation forecast by Shoupp, Westinghouse, 1/27, p.21
Materials battle rages at convention meeting, 1/20, p.17
Prepainted galvanized steel siding, promising markets, 1/20, p.30
Romney: Housing market demands attention, 5/26, p.21
Structural steel framing in apartment buildings increases, 2/10, p.47
Ti-Krome tubing for home construction heating, water and sanitary lines, 3/10, p.52b*

Hydrogen:
Pure hydrogen heated with induction plasma gas heater, 3/10, p.52b*

I

IIT Research Institute:
Burr-free process on one machine, combination of electrochemical and conventional machining, 6/30, p.14
Squeeze casting or liquid metal forging process, new dev. that is used in Russian plants, 5/5, p.44

Incentives:
Union-management incentive study, steel industry, new guidelines decided by arbitration, 6/23, p.21

Incinerators:
Incinerator heats up savings (Rockford Screw Products), 2/17, p.65

India:
Build aluminum complex including smelter with USSR, 1/20, p.21
Pilot plant for testing iron ore on stream, Mysore, 1/20, p.21

Indonesia:
Irian Barat nickel deposit explored, 3/3, p.23

Induction Heating:
Induction plasma gas heater heats pure hydrogen, 3/10, p.52b*
Induction heating system for continuous cast, Westinghouse, 6/30, p.14

Industrial Fallout:
Vietnam: How much industrial fallout? Technologies for civilian use, 2/3, p.45

Industrial Fastener Institute:
Fastener code, common numerical language, 4/28, p.23

Industrial Parks:
Settings for plants lift employee morale, 4/7, p.20

Industry Growth:
BDSA forecast for '69: How industries will grow, nonmanufacturing sectors fastest, 1/13, p.18

Inflation: See Business (Economy)

Input:
Is manual input on the way out, STEEL Feature, 2/3, p.27

Inspection Testing:
Analytical spectrometers, chemical reactions visible via EPR (electron parmagnetic resonance), 3/10, p.72j*
Cast iron shells checked fast via magnetic particle approach, 4/28, p.124f*
Coating thickness gaged with nuclear particles, backscattering tech., Tyco Lab, 4/21, p.28c*
Computer operated manufacturing and test system (IBM), COMATS, 4/7, p.52f
Cordax, computer controlled measuring, 5/5, p.23
Electron microscope focuses in on atom planes: GE scientists claim, 2/17, p.88k*
Electrostatic spray dye penetrant detects flaws in metal parts, 2/3, p.20
Emission spectrograph readings for analysis of alloys going into investment castings, 4/21, p.23
Invention keeps mill gage control rolling, 1/6, p.100
Lockheed sees real-time component monitoring, 1/13, p.56b*
Magnetic sorting bridge tests steel quality, Australian dev., 2/17, p.88n*
Microwave interferometer controls thickness of plastic parts during machining, 6/2, p.25
NC unit inspects parts still in machine, Lockheed - California (C-5 Galaxy main frames), 1/6, p.100j*
Nondestructive testing, color display of ultrasonic wave information, 3/17, p.21
Optical scanner detects tiny defects on precision bearing balls, 1/20, p.17

Institute for Politics & Planning:
Barber views worldwide corporations—should apply to UN for corporate character to legitimize status, 3/24, p.21

Institute of Scrap Iron & Steel Inc.:
Junked autos responsibility of industry: Sen. Randolph writes in institute publication, 6/9, p.72
Processors charge to haul low grade scrap, survey, 1/20, p.72
Story addresses council: Scrap disposal problem at plants increasingly difficult, 4/21, p.68

Instruments & Controls:
Fluid logic system, price cuts pave way for comeback (Design Show), 5/12, p.21
Fluidics may sort mail, 4/21, p.22

Insulation:
Dow to introduce ceramic foam commercially, a fired clay product that foams due to additives that vaporize during heating, 4/21, p.52h*

Inventories:
Auto industry buildup, 2/3, p.5
Components, 2/3, p.67
Components, 5/19, p.80
Steel mill products, 3/17, p.75
Steel mill products, 6/30, p.21

Investment Credit: See Taxes

Investments:
Pension funds investment: Luter (Dresser Industries), 3/3, p.19
Take another look at your personal investments: Advice from Supple (Argus Research), Moran (Merrill Lynch), Sylvia Porter (economic writer), 6/30, p.20

Ireland:
Seeking industrial investments for factories to produce for exports, 6/2, p.29

Iron Ore:
Lake Superior district holds iron ore lead; other figures, 1968, 2/10, p.48
Metallized pellet test year—steelmaking in 1969 (startup of Oregon Steel), pellets made by Surface Combustion in facilities adjacent to steel plant, 2/10, p.38
Mt. Isa (Australia), new ore find, 6/16, p.60d*
World pelletized iron ore, annual capacity (countries), 2/10, p.19

Ironmaking:
Swedes try cokeless ironmaking, 4/7, p.18

Iron-Nickel Pellets:
European alloy and stainless producers witness trials of reduced iron-nickel pellets in German furnace, 5/19, p.29

Iron Powder:
Russian electrolytic process makes iron powders, 6/16, p.18

Italy:
Fiat plans three projects, 1/27, p.23
Fiat, Ferrari co-owners of Farrari Auto Works, 6/30, p.12
Italsider begins BOF conversion, 4/21, p.24
Metal producers challenge U. S. duties, 6/30, p.12

J

Japan:
Carbon steel demand up, 6/9, p.24
Fuji Iron: Hot gas augments coke reduction in blast furnace, 4/14, p.25
Japanese-U. S. computer firm formed, 3/31, p.21
Joint venture agreement between Borg-Warner and Aisin-Seike (automatic transmissions), 4/14, p.23
Kawasaki blows in giant blast furnace, 2/3, p.15
Kowa Seiko: Calcines produced, residue from pyrite (fool's gold), 3/3, p.22
Machine tool output to slow, 6/2, p.29
Market ventures in Asia, Africa, 1/13, p.11
Mitsui, Kobe form U. S. sales firm, Durakut International, 3/10, p.25
Nippon Kokan, thermal drying process boosts coke oven output, 2/10, p.17
Nippon Kokan shipyard ready to lay first keel, 2/17, p.88g*
Nissan opens Datsun (auto) plant in Taiwan, 1/20, p.72c*
Productivity: Spotlight in postwar for growth and development, 1/6, p.65
Steel demand increases, 3/3, p.17
Steelmakers reduce cost of ore and coking coal, 4/7, p.19
Steelmakers bullish about steel production in fiscal 1969, 4/28, p.25
Sumitomo Metal negotiating contract, steel products to Chinese trading firm, 4/28, p.27
Toyota reports cost conscious evaluation of forging lubes, 3/10, p.27
Welding industry boom, 6/16, p.21
Yawata dev. new electrocoating process for coil sheet, 2/17, p.29
Yawata electrocoat primer on coil, 3/24, p.16
Yawata's Yamada looks at Japan's steel industry, 2/17, p.29
Yawata and Fuji merger forecast, 2/10, p.11
Yawata, Fuji merger not dead despite rejection by Japan's Fair Trade Commission, 3/24, p.11
Yawata-Fuji merger may slow Jap steel, 5/5, p.24
Zip code works, Post Office, 2/3, p.19

Job Shops:
Arrow Tool: Small NC job shop gets payoff from in-house computer, 2/17, p.59

Jobs:
A STEEL seminar in print: How your job is changing, 1/6, p.77
Cities continue to lose jobs, moves to suburbs up ghetto unemployment, 6/16, p.17
Job hopping recruits plague companies, 5/19, p.72k*

Job Training: See Training

Johns Hopkins University:
Dr. Green: X-rays and TV team to show atoms in motion, 2/10, p.40c*

Joining:
Adhesives (Loctite) lock precision grinder spindles loosened by vibration, 4/7, p.45†
Adhesive bonding by automotive firm (Loctite units), 4/14, p.64
Adhesive bonding reduces production assembly costs, carbon tipped parts, 6/9, p.48c*
Adhesive dev. at McDonnell for use at cryogenic temps., 6/23, p.29
Adhesives form outer conductor of coaxial cable, Bell Systems, 4/28, p.29
Bonding coating of solder on aluminum strip new process (goof-proof), 2/10, p.56c*
Coil coaters solve fastening problems: Ultrasonically assisted adhesive bonding and plasma arc welding, 4/7, p.17
Composite tubing (Sandvik) solves joining problems, 5/5, p.48
Diffusion bonding aircraft parts at Sundstrand, 4/28, p.52
Diffusion bonding will fit every industry, Northrop forecast, 3/24, p.15
Fluxless brazing simplified, 6/2, p.23
Solar 'flash' bonds composites: Diffusion bonding process for joining boron filaments in a matrix of titanium, 1/20, p.38* and 3/3, p.46†

Joint Ventures:
Joint ventures beat out profit paths, 6/23, p.38
In for antitrust scrutiny, Gen. McLaren reports, 6/16, p.19

L

Labor Costs:
1968 vs 1969: Deferred pay hikes drive costs up, 1/6, p.19
Labor costs—pressure from below, 5/26, p.7

Labor:
AFL-CIO unions, GE to spar this summer, 3/24, p.19
ALA is launched, Alliance for Labor Action (Reuther's), 5/26, p.23
Electrical firms (GE, Westinghouse) pushed by economic factors: What price labor peace? STEEL Feature, 6/30, p.23
IAM's Siemiller foresees big union demands (airlines, railroads, electrical industry), 2/10, p.13
ILA: Dockworkers guaranteed annual wage; other provisions of pact, 3/3, p.17
IUE bring 'technicians' to talks with GE, 5/19, p.23
IUE-GE: Coalition bargaining issue lingers, 6/16, p.15
IUE-GE avoids prenegotiation snag, 6/23, p.21
IUE's Shambo speaks on electrical contracts, GE, Westinghouse, 6/30, p.25
Labor contract rejections rising: Dr. Kelly, Cornell, predicts, 6/30, p.11
Mediator (N. J.) says strikes not all bad, 6/16, p.18
Negro unionists want bigger voice, 1/6, p.19
Nordic union discussed (Denmark, Norway, and Sweden), 4/28, p.25
Racism challenges union leadership: Evans, Allied Industrial Workers, 3/17, p.37
UAW says: Mergers aid white-collar organizing (Douglas Fraser report), 1/27, p.27
UAW gets grant to aid youths from Labor Dept., Project Outreach, 1/27, p.19
UAW sets its strategy: International Skilled Trades conference on new technology, 4/28, p.13
UAW to hold skilled trades conference, ask firms to set up exhibits, 3/17, p.21
UMW presidential battle erupting, 6/16, p.18
USWA elections, Abel opposed by Narick, and Morros by Burke (secretary-treasurer), 1/13, p.10
USWA: Will Abel finish his new term? May succeed Meany (AFL-CIO), 2/17, p.21
USWA: Abel vote vs Narick, 2/24, p.15
USWA: Abel fence mending role between now and new contract: Vote margin over Narick, 4/28, p.21
USWA district losers fill posts, Griffin, Schremp, 6/16, p.18
USWA's Fuller: Racism challenges unions, 3/17, p.41
USWA pension for Goldberg (he asks ok by American Bar Assn.), 5/19, p.25
USWA: Goldberg turns down pension, 6/9, p.22
Wage settlements above '47 gains, BNA report, 1/27, p.21
Whitecollar organizing aided by mergers (UAW Fraser reports), 1/27, p.27

Lasers:
Device to switch laser beam with piezoelectric crystal builds memory computer, 4/14, p.25
Laser cuts ceramics (scribing), 4/14, p.27
Laser drills big holes, applying special lens, 2/24, p.18
Laser for bigger welding role, United Aircraft, 3/24, p.16
Laser handles pinhead-size welds, 4/7, p.18
Laser jogs computer memory, holograph stores 150,000 English words (IBM), 6/2, p.25
Laser makes alignments fast (made by Perkin-Elmer) auto-reflecting tooling, 3/3, p.21
Long laser leads welding race, 1200 watt job in United Aircraft lab reported by Banas, senior scientist, 5/12, p.56†
Rainbow laser tested by scientists in England, 6/2, p.29

Leasing:
Equipment leasing for '69, computer leasing to lead field, Newstetter Jr. forecast, 1/13, p.11
Wheelabrator reports leasing system for air pollution equipment, 2/24, p.17

Liability:
Corporation liability (editorial), how much amnesty, 5/19, p.21
Government to control hazardous products, 5/5, p.29
Liabilities growing in business failures, Dun & Bradstreet report, 6/23, p.31
Liability warns smaller firms—sell safety design, 3/24, p.13
Product liability hits all manufacturers: Lawyer addresses plastics meeting, 5/5, p.48b*

Lubricants, Lubrication:
Cutting fluids, large use in metalworking lubes, 3/3, p.30
Dry film lubricants, applications increasing, guidelines compiled by Acheson Colloids, 2/3, p.58
Dry film lube (Emralon) used at Rowe for jukeboxes (five year moratorium), 5/5, p.48f*
Forging lubes, cost conscious approach, Toyota, 3/24, p.27
Lube savvy smooths forming, cutting: Metalworking managers surveyed on ideal lubricant, 3/3, p.29
Subzero coolants work for Argonne—machining the exotics, 3/10, p.49
Zinc and lithium stearate based lube used in cold extrusion of aluminum irrigation tubing, economies cited, 2/24, p.37

M

Machine Tool Industry:
1969: It'll be a good year, but no '66 (STEEL survey), 2/10, p.11
AMTBA (Hoffman): Can distributor contracts be cancelled too easily? 1/27, p.33
AMTDA meeting in Nassau . . . Foreign builders 'more realistic,' Hoffman report, 3/31, p.15
Aerospace manufacturers, what they will need from machine tool builders: Lockheed's Moncsmith reports, 4/14, p.41
Buy machines for performance (Menasco's productivity bidding), 3/3, p.24b*
Cutting tool orders slip in '68 (NMTBA), 1/27, p.19
Czech machine importer sees sales expanding (Simmons Machine Tool), 1/27, p.41
Is manual input on the way out? Tapeless NC, 2/3, p.27
Lathemaker (South Bend Lathe) shapes its future, to introduce one new product a year, 4/14, p.63
Litton enters machine tool market, 2/17, p.45
NMTBA report: Metal forming machine tool orders, 1/6, p.63
NMTBA: Machine tool orders gaining, 3/31, p.17
Orders for tools, new and used, still high, 6/30, p.11
Used machine tools, market trends, 1/6, p.123; 2/3, p.18; 3/3, p.21

Machine Tools & Attachments:
Chucker-automatic, pays on small runs, 2/24, p.32
Chucking lathe (NC) features tool changer, Tape-Turn CX, 2/24, p.15
Computer to monitor 250 machines, England, 4/21, p.22
Contouring attachment on Heald Borematic trims machining costs, 1/6, p.100a
Measuring machine, Validator (Brown & Sharpe), 3/17, p.35
NC lathe for single part runs (tubular section of an air operated percussion hammer drill), 4/28, p.124f*
Thread milling cutters, Lees-Bradner, 2/3, p.34

Machinery & Allied Products Institute:
Data export controls, technical reports released, 3/10, p.32a*
Stewart asks for end of foreign direct investment curbs, 4/7, p.22

Machinery Dealers National Assn.:
Annual meeting report: Credit repeal will hit used tools, 5/26, p.21
Used machine tools, market trend, 1/6, p.123

Machining:
ADE (automated drafting equipment) halves machining time, 4/21, p.44
Brown & Sharpe's Validator, measuring machine, 3/17, p.35
Burr-free process on one machine, combination of ECM and conventional methods, 6/30, p.14
Chemical milling gains acceptance, report of Don Spear, Eastman Kodak, 3/31, p.46
Cold machining exotic metals at Argonne: Subzero coolants, 3/10, p.49
Computer control of machines linked by conveyors: How we'll cut parts tomorrow (multimission and batch machining), 5/19, p.45
Computer monitors 41 machining operations, Buick valve body line at Flint, 3/24, p.7
Disc brakes zipped out at 1,600 per hour clip: Cross automatic system for GM's Chevrolet plant in Saginaw, 3/10, p.56
ECM drills small, deep holes in superalloys (STEM), 5/5, p.32b*
ECM triple-headed unit at Curtiss-Wright saves in capital costs, 5/19, p.51
EDM handles four aluminum turbine impeller blades at a time, 3/10, p.27
EDM (Ingersoll) power pack: multipunch, line of transistorized power packs for EDM, 2/24, p.29
EDM cuts giant stamping dies at Ford, 2/24, p.19
Machining researchers find . . . touchy parts need extra care (Metcut and GE speakers), 3/31, p.56d*
Manual input on the way out? 2/3, p.27

NC and computers for tomorrow: More science, less 'thumb,' Westinghouse forum, 6/9, p.21
Satellite centers cut IBM's costs, systems planning NC machines—balancing man/machine workloads, 5/26, p.38
Speedier thread milling chases production jobs at Lees-Bradner, 2/3, p.23
Titanium billet sawing, machining data, 4/21, p.28g*
Tracer controls instead of NC, 5/26, p.46†
See also Numerical Controls

Magnets:
Magnet picks up sheet to feed into stamping press, Eriez magnetic destacker, 5/26, p.25
Magnetic sorting bridge tests steel quality, 2/17, p.88n*
Superconducting magnet attracts researchers, ready at AEC Argonne Lab, 2/10, p.56b*

Maintenance:
Can you manage maintenance? STEEL Feature, 6/2, p.41
Computer only recourse in preventive maintenance (COMSMAC): Boras (GE) speaker at Plant Eng. & Maintenance conference, 4/7, p.53
GE service shop, shift to electronics in maintenance, cover pic, 6/2
Maintenance: A way to boost profits (report at Plant Eng. & Maintenance conference), 3/31, p.29
One mill's answer to preventive maintenance: Dofasco mill, cutting down on leaks means cutting costs, 3/31, p.56b*

Management:
A STEEL seminar in print: How your job is changing (managing for productivity), 1/6, p.77
A. O. Smith's management audit rating system, 3/10, p.43
AAIM: Checklist on waste cutting—top management can control costs, 4/28, p.124d*
AAIM: Persuasion is modern muscle in presenting programs to employees (12 tips for managers), 6/23, p.47
Advice for effective management: Byrom (Koppers) address to AMA, 6/30, p.15
Building a staff—experienced or inexperienced people? Computer resolves dilemma, 1/20, p.21
Changes in technology means changes in management structures: Moore Aerospace & Systems Group, North American, 4/7, p.32
Combination systems engineer and computer programmer: Label him a systogrammer-1975, 1/6, p.95
Design managers talk shop (feature), 5/5, p.33
Display systems speed decision-making, 2/3, p.32
Does management's boat need rocking? Caserio, GM's Truck & Coach Div., describes his approach to management development, 1/20, p.23
Electrospace management concept, Tribus (commerce-science and technology), 6/23, p.21
Executive appointments upsurge, 2/3, p.17
Executive demand up, Heidrick & Struggles survey, 4/21, p.21
Grooming upcomers, have a back-up man ready, 4/21, p.29
Improving your manager image: Dr. Brooks (Cornell) addresses GM-Oakland conference, 1/20, p.25
Junior executives, safety program one area for development, 5/12, p.39
Materials managers: From metallurgist (just out of lab) to materials manager: Falk's Bergman report, 3/3, p.38
Metalworking executives' education (degrees), ER survey, 1/27, p.21
'Money managers' (the take-over specialists), merger-acquisition threat, 2/24, p.16
Planning seminars pay off at Wabco, 3/24, p.25
Product managers role for productivity, 1/6, p.92
Tomorrow's managers need more foresight: Maurer (Ventura Div.-Northrup), 4/7, p.24d

Management Systems:
ADE (automated drafting equipment), computerized engineering for software, 4/21, p.44
AVDS (automatic vacuum deposition system), computerized system produces microcircuits, 4/21, p.45
By mid-70s, trend toward management information systems (MIS), trained specialists needed, 5/5, p.48n*
CAMP: Chops tape preparation costs (Westinghouse Computer aided machine programming), 3/3, p.56†
COMATS: IBM plant's computer operated manufacturing and test system, 4/7, p.52f
COMSMAC: Computerized system for preventive maintenance control, 4/7, p.53
PERT/CPM coordinates production, marketing at Steelcase, 5/26, p.45

Managing for Productivity (STEEL seminar):
1. How good is your department? Baker case, 2/17, p.45 and winners, 5/19, p.61
2. How to plan better, Wallco case, 3/31, p.31
3. How's your manager image? Basic Structures case, 5/12, p.43
4. How to turn your men on, Space Controls case, 6/16, p.25

Manpower:
European manpower breakdown by industry, 1/13, p.16
Federal manpower programs, budget stresses training, 2/3, p.24
Manpower upgrading is industry's burden: Prof. Chamberlain, Columbia Univ., 6/2, p.72f*

Manual Input:
Is manual input on the way out? STEEL Feature, 2/3, p.27

Marketing:
Alcoa puts 'Trailblazer' sales show on road, 2/24, p.17

Marketing Abroad: See Foreign Markets

Marshall Space Flight Center:
Angele reports: Flat conductor cable finds uses outside defense industries, 5/26, p.46

Massachusetts Institute of Technology:
Prof. Miller: Short air haul would help cities, airports, 6/2, p.72q*

Material Handling Industry:
Bookings, market trend, 3/24, p.99
Bookings set records, 6/9, p.23
Cybernetic material handling, GE dev., 5/12, p.25
STEEL Feature: Material handling moves up—mechanized vertical storage is changing warehousing, 4/14, p.49
Rohr markets systems for advanced material handling, 5/5, p.49

Material Handling Equipment: Conveyors:
Buick 'probes' chip conveyors to slash downtime, Fab-Tec controlled monitoring system, 5/5, p.43
Spinning tubes replace belts and rollers, Cartrac system dev. in Sweden, 5/12, p.25

Cranes, Hoists:
Automated hoists, plating setup at Caterpillar, 3/10, p.60

Melting:
Electric melt shop control . . . computer takes on new chores (Lukens), 3/31, p.43
Electron beam melting purifies alloy steels, Airco Temescal, 6/30, p.30
Induction melting furnace dev. by Cyclops, 6/30, p.10
Reduced melting costs predicted with new nonconsumable electrode technique, 6/23, p.25

Mergers:
Are conglomerates good or bad for the economy: STEEL surveys 25 economists in industry and banking, 4/14, p.54
Conglomerate mergers: Government vs industry (AMA meeting discussion), 6/23, p.23
FTC rules, closer tabs on corporate marriages, 4/21, p.21
How much correction (editorial), 4/14, p.17
LTV welcomes investigation of conglomerate mergers, 3/31, p.17
LTV's acquisition of Jones & Laughlin: Ling (chairman) counterattacks, rejects Justice's 'legal vivisection,' 4/28, p.37
Merger trend grows, survey by Grimm & Co., 4/21, p.20
Pennsylvania antitakeover bills proposed, 6/9, p.21
UAW (Fraser): Mergers aid whitecollar organizing, 1/27, p.27

Metal Buildings:
Construction boom, 6/16, p.17
Sales of pre-engineered metal building up, 3/3, p.19

Metal Cleaning:
German deburring, electrolytic chemical process, 5/19, p.72r*

Metal Deposition:
Ceramics can be electrodeposited, 3/10, p.26
Sputtering—vacuum vapor deposition: The suave way of plating, 3/10, p.39
Vacuum deposition system (computerized) produces microcircuits, 4/21, p.45

Metal Powder Industries Federation:
Conference: Powder metal men ponder price crunch, Alcoa's dev. program for aluminum powder metal parts, 4/28, p.21
Concern greets 6-cents-a-pound raise from German firm, 5/12, p.21

Metal Removal:
EDM produced nickel layer removed by etching, abrasive grit blasting, 4/21, p.23

Metal Spraying:
Metallizing cuts costs of repairing worn journals, 2/3, p.57

Metal Stamping:
Nitrogen gas cylinders replace die springs for metal stamping die application, 1/20, p.72b*

Metallized Ore:
Steelmaking in 1969 . . . test year for metallized pellets: Start-up of Oregon Steel plant, with Surface Combustion facilities adjacent: Kaiser scrambles for contracts for its metallized ore (tradename HImet), 2/10, p.38

Metallurgists:
From metallurgist to materials manager; Bergman, Falk Corp., report, 3/3, p.38

Metalworking:
1968 profits, 2/24, p.5
1969 annual edition, Facts & Figures, 3/24, p.33
1st quarter forecast: Caution tinges profit's blue skies, results from 70 metalworkers, 5/12, p.7
1969: What managers expect in 2nd half, 6/9, p.33

Metalworking Trendlines:
Aluminum P/M parts market opens up, Alcoa, 5/12, p.33
Are you prepared for noise laws? Alcoa's Haluska, 2/17, p.41
AutoForge: Molten metal to forgings on automatic machine at TMW, 3/17, p.31

Electron beam melting purifies alloy steels, 6/30, p.30

Steel Coils:
Fullerton Metals installs blanking line to meet foreign steel competition, 4/21, p.28b*

Steel Fabricators:
AISC report, first six months shipments, 2/24, p.52

STEEL Features:
At Wabco—Planning seminars pay off, 3/24, p.25
Armco pulls turnaround trick: Task force studies Ashland Wks. performance, 4/28, p.41
Can you manage maintenance? 6/2, p.41
Coated steels turn in star performance, 1/20, p.29
Curve for heat treaters: Paste these in your hat, 6/23, p.33
Design managers talk shop, 5/5, p.33
EB welding sweats market break (growing use by automakers), 4/21, p.29
Electrical industry—what price labor peace? 6/30, p.23
How we'll cut parts tomorrow: multimission machining, batch machining (computer controls), 5/19, p.45
Hydrostatic extrusion: Can you afford to wait? 2/24, p.25
Is manual input on the way out? 2/3, p.27
Lube savvy smooths forming, cutting, 3/3, p.29
Material handling moves up, 4/14, p.49
NTBs (non-tariff barriers) stand taller as tariffs tumble, 4/7, p.25
Noise Pollution: How much can you afford? 1/13, p.21
Productivity for survival: Walter J. Campbell, 1/6, p.65
Racism challenges union leadership: Evans. Allied Industrial Workers, 3/17, p.37
Ready for Recruits? 5/26, p.33
The suave way of plating, sputter coating—vacuum vapor deposition, 3/10, p.39
Weldermakers brace for winds of change. 1/27, p.29
What metalworking managers expect: 2nd half, 6/9, p.33
Why Ford nitpicks die steels, 2/10, p.25

Steel Imports: See Foreign Competition

Steel Industry:
Annual financial analysis of steel industry, 4/7, p.33 and editorial, p.13
1st quarter profits off 28%, reports from 22 companies, 5/12, p.29
Kaiser Steel's annual survey of Western steel market, 5/19, p.79
Steel producers diversification: Bank agreements, new stock for acquisitions issued, 4/7, p.20
Steel profit coverup: Companies for '68, 2/10, p.5
Midwest market: Emphasis by steelmakers, Chicago to Dakotas, 4/21, p.25
Steel needs new image and recruiting techniques to get young people, Armco's Verity speaker, 5/26, p.31
Steelmaking investment campaign pays dividends: Stinson (AISI) reports, 5/26, p.29
Steelmakers' spending sets record pace (how '69 company outlays compare), 2/17, p.39

Steelmaking:
1969 steelmaking—test year for metallized pellets, start-up of Gilmore's Oregon Steel Div., 2/10, p.38
Carbon logs overtime in blast furnaces: Brummett, Union Carbide report, 4/14, p.69† and 4/21, p.52f*
Copperweld double scarfs billets for higher quality, 3/24, p.28
Czechs check out tandem furnace, Nova Hut Gottwalda, 6/23, p.45
Direct reduction talk keeps cropping up, firms reporting, 5/5, p.21
Electron beams aid steelmaking, refines steel melted in vacuum induction furnace, 6/23, p.19
Electron beam melting purifies alloy steels, Airco, 6/30, p.30
Patent rights from Russia for electroslag remelt process, 6/16, p.20
Revolution in U. S. steelmaking technology cited by Fr. Hogan (Fordham), 5/19, p.40
Silicon carbide raises scrap use in BOF melts at Republic, 1/20, p.72
Steelmakers ponder—make or buy annealing gas? 4/14, p.56

Steel Mill Controls:
Computer to control blast furnace charges, 6/2, p.27
Granite City Steel: Complete computer control makes grade in hot strip mill, 2/10, p.40a*
Lukens electric melt shop control . . . computer takes on new chores, 3/31, p.43

Steel Mill Products:
AISI table: Steel mill product imports, 5/5, p.63
Inventory survey, 3/17, p.75 and 6/30, p.21

Steel Mill Shapes:
Stocks of steel mill shapes, chart, 5/19, p.79

Steel Mills:
Asian steel plants plotted in six countries, 5/12, p.27
Holland gets Dutch-West German mill, 3/31, p.21
Mini steel mills—Howard Johnson style? 3/10, p.25
Pacific Northwest gets steel mill, Cascade Steel builder, 6/23, p.27
Packaged steel mills—offered in product line by Penn. Engineering, 3/10, p.33
Singapore-Thailand steel complex considered, 4/28, p.27
U. S. Steel rod mill. Fairless Wks. —ready to buck imports, 3/24, p.22

Steel Plate Fabricators Assn.:
Aluminum growth rate projected at 40% in 5 years, 5/12, p.21

Steel Quotas:
Foreign steel users feel pinch, 5/19, p.23
IWDA pushes request to have hot rolled rods exempted from quota system, 3/17, p.19
Wallace (U. S. Steel): Why steel will continue push for quota law, 3/24, p.23

STEEL Seminar in Print: See Managing for Productivity

Steel Service Center Institute:
Sales up (barometers of business), 3/31, p.18

Steel Service Centers:
Training women in sales, Armco report, 6/2, p.21

STEEL's Panel of Economic Consultants:
Forecasts adjust to higher prices: Graph—what economists expect of wholesale prices, 4/14, p.7
Semiannual survey: Strong outlook means continued restraints, 4/21, p.33

Stockholders:
AMA speaker: Make an informed friend of your stockholder, 5/5, p.20

Storage:
GE stacker control system—coded tabs, 5/5, p.48g*
Goodyear Aerospace uses paper tubes to store small steel stock, 5/5, p.52
Switching to Armco steel reduces weight of storage racks, 5/19, p.72w*

Strapping:
Strapping machine uses fluid logic controls in banding cartons, 5/19, p.72s*

Stretch Levelers:
Automatic blanking press-stretcher leveler installed by service center, slitting steel coils, 4/21, p.28b*
Stretch leveler and twister for straightening extrusions, German built (for Dow), 3/3, p.22

Strip Mill:
Granite City Steel: Complete computer control in hot strip mill, 2/10, p.40a*

Structurals:
Polymers and concrete team up to make new family of structural materials, Dept. of Interior report, 2/24, p.19

Students for a Democratic Society:
SDS invades industry, summer jobs (editorial), 5/12, p.17
U. of Pittsburgh SDS chapter finds steelworkers hard to convince, 5/19, p.25

Sulfur:
Sulf-ore process-extraction of sulfur from native ores, 1/27, p.41

Systems Analysis:
ASQC speaker: Quality expert plugs 'system,' 5/12, p.25

T

Tape:
Mektherm, a thin heating tape that heats to 250 F, 2/24, p.32
Spot-Stik masking film in prefinished aluminum and steel surfaces, protection, 2/24, p.32

Taxes:
7% investment tax credit: Soaring seventies on a broken wing (metalworking trendline), 4/28, p.33
7% investment tax credit uncertainty, hedging in limbo, Hagedorn-AMA report (metalworking trendline), 6/16, p.22; hedgers lose out, 6/23, p.21
7% tax credit, House urged to repeal, 2/3, p.17
7% investment tax credit under fire again: Treas. Chief Kennedy says—no tinkering with credit, 4/7, p.15
7% investment tax credit: Industry fears repeal would buy trouble for '70s, 4/28, p.35
7% tax credit viewed by rail supply shops, 4/28, p.131
7% investment tax credit repeal a mistake (editorial), killing the goose that lays the golden eggs, 5/5, p.17
7% investment tax credit—buyers rush to beat repeal date, 5/5, p.19
CED: President needs tax power when economy calls for action, 2/3, p.15
Depreciation reform is must: Fr. Hogan, 4/28, p.21
Interstate Taxation Act, bill awaits House vote, 6/16, p.17
Tax reforms center on industry—as Congress eyes loopholes, 2/17, p.19
TVA (tax on value added), a replacement for part of corporate income tax? 5/19, p.37
Value added tax study, aid to exports? 1/6, p.63

Technical Data:
MAPI: Controls on exportation of technical data, 3/10, p.32a*

Technology:
Aerospace managers choosier about areas of technology to push, fewer federal funds to work with, 3/17, p.50
Faster technology pace demands change at top: Moore, North American Rockwell, 4/7, p.32
Steelmaking revolution, new techniques cited by Fr. Hogan, 5/19, p.40
Technological gap between U. S. and Europe: Prof. Farris, U. of Mich., 2/10, p.21
UAW's International Skilled Trades conference on new technology, 4/28, p.13

Teflon: See Plastics

Television: See Radio, TV

Thefts:
Pinkerton claims scrap metal easy prey during handling or disposal, 2/10, p.40b*

Titanium:
ASM symposium addressed by Kessler (Reactive Metals): Titanium future is bright, 4/21, p.23
Boeing lists advances needed for titanium, 3/31, p.24a*
Tips for sawing titanium billets, 4/21, p.28g*

Tool & Die Industry:
NTDPMA's Weitzel deplores business prospects, competition with machines bought with tax money, 1/27, p.59
NTDPMA against captive operations—takes fight to Congress, 4/28, p.19
NTDPMA reports House subcommittee hearings, 6/16, p.15

Tool Control System:
Tool changing by phone (computer) tightens GM plant control, 3/3, p.36

Tool Show:
Takes on machine tool flavor, company displays, 5/12, p.19

Tool Steel:
Air-4 tool steel for pull tab can tops, 4/28, p.124a*
Ford nitpicks die steels, Metal Stamping Div., STEEL Feature, 2/10, p.25
Ford's specs: Steels for stamping dies (chart), 2/10, p.29
Gleason sets par for bars: Rates vendors who supply high speed tool steel for cutter blades, 3/17, p.44
Guide to Tooling Materials, 4/28, p.53
Water hardening tool steels, 4/28, p.51 S-11

Tools & Dies:
Air-4 multistation die gets the lids out (easy-open can tops), 4/28, p.124a*
Cast forging dies, 6/2, p.32r*
Giant plastic stretch dies shape aircraft skins at Norair Div., 2/24, p.38
Portable transfer dies cut costs at Livernois Automation, 6/9, p.48a*
Titanium carbide coat for extrusion dies multiplies life, dev. by Fansteel, 2/24, p.44c
Why Ford nitpicks die steels, feature article, 2/10, p.25

Tools (Cutting):
Standard insert triples tool life (Carb-O-Lock), 2/17, p.88a*

Tracer Control:
Tracers track higher sales, firms making, 5/26, p.46†

Trade Balance:
Commerce Dept.'s new asst. sec'y Dav's: Trade balance is 'mission,' 6/30, p.20

Trade Barriers:
Nontariff barriers stand taller as tariffs tumble, STEEL Feature, 4/7, p.25

Tradenames:
Tradenames of tooling materials, 4/28, p.52 S-6

Training:
GMC management development program, 1/20, p.27
Hard-core training at Caterpillar, 6/2, p.32a*
Hard-core training program pays off at International Harvester, 3/24, p.17
In-company college opened by Western Electric, 6/9, p.25
Industry aids GI transition with job training, metalworking trendline, 1/6, p.59
In-plant training course increases productivity: Williamson, Union Carbide foreman, 5/5, p.32n*
Manpower budget stresses training, federal programs, 2/3, p.24

Negro supervisory training, Case Western Reserve, 1/20, p.13
Planned training: Kickoff to productivity: Gunderson (Gorton Machine) reported to ASTME, 5/5, p.32a*
Steel founders create apprenticeship training, 1/20, p.63
UAW gets federal grant to aid youths, Project Outreach, 1/27, p.19
Women trained for service centers, 6/2, p.21

Trains: See Railroads

Transportation:
Auto industry ready to participate in country's transportation problems, costs of seven systems compared, 1/13, p.7
Containerization plan—pilot projects begun (intermodal container terminals around the country connected by unit trains), 3/3, p.24d*
Electronic highways: personal mass transit, 6/2, p.40
Mass transit market—industry ready for bidding to start, 3/17, p.19
Metroliner, 160 mph train between N. Y. and Wash., 2/17, p.23
Rapid transit systems, a fresh look at selling, 6/2, p.39

Truck Terminals:
Automatic handling cuts costs, 5/26, p.25

Trucks, Trailers:
Gas turbine trucks, units operating, 6/2, p.13
Truck sales set records, 5/12, p.13

Tubing:
Composite tubing solves joining problems (Sandvik), 5/5, p.48
Imported boilers next step? ABMA speaker, 2/3, p.18
Irrigation tubing: Lube is key to aluminum extrusion economies (Zinc and lithium stearate based lube), 2/24, p.37
Tailored tubing takes on bar stock, via extrusion at Gulf States Tube Corp., 1/27, p.52a*
Ti-Krome tubing for home construction, water, sanitary lines, 3/10, p.52b*
Tubemaker probes stresses to upgrade performance: Superior Tube Co.'s small cold drawn tubing, 6/30, p.27
Wrought iron seamless tubing, Gulf States Rosenberg plant, 1/27, p.52a*

Turbines:
Mid-1971: Turbine age begins, 2/10, p.7

U

UAW, USWA: See Labor

Ultrasonics:
Color display of ultrasonic wave information in nondestructive testing, 3/17, p.21
Ultrasonic cleaner revives jet oil filters, Lockheed-Georgia, 1/27, p.52e*

Underseas: See Oceans

Unions: See Labor

University of Michigan:
Surveys consumer spending, 4/14, p.19

University of Toledo:
Pollution control laws discussed by industry-government at conference, 4/7, p.23

Urban Renewal:
Housing project operated by Urban League, Gary, Ind., 5/26, p.21

Used Machine Tools: See Machine Tool Industry

V

Vacations:
BNA survey: Union contracts stipulate paid vacations, 4 and 5 weeks, 3/24, p.15

Vacuum:
Computerized vacuum deposition system produces microcircuits, 4/21, p.44
Dravo builds vacuum degassing vessel, 5/5, p.23
Oil-quench-vacuum furnace: Door to creative heat treating, 4/7, p.46
Piezoelectric crystal measures thickness of films, Hungarian dev., 6/23, p.27

Vacuum Melt:
Firm builds facility for vacuum melted alloys, 2/3, p.57
Induction melt furnace (giant) dev. by Cyclops, 6/30, p.10

Value Analysis:
Value analysis applies to plant engineering: Clarke, Vought Aeronautics Div., 4/14, p.100a*

Vertical Storage: See Material Handling

Video Tape: See Radio, TV

Vietnam:
How much industrial fallout? Helicopters, amphibious vehicles, small turbines, etc., 2/3, p.45

W

Wabco: See Seminars

Wallco: See Seminars

Wages:
Wage increases for all industries rise, BNA report, 1/27, p.21

Warehousing, Distribution:
Mechanized vertical storage: STEEL Feature, 4/14, p.49
Ryerson takes hard look at computer economics, order entry system, 1/27, p.34

Warm Forming:
Hydra-Matic Div. (GM), warm forming gets nod over cold forming (pinion blanks), 1/13, p.56a*

Warm Rolling:
Stanford study: Warm rolling carbon steel ups strength, 2/17, p.19

Warranties: See Appliance Industry

Washington University:
Dr. Weidenbaum: Government has taken over decisionmaking functions belonging to business management, 3/31, p.27

Waste Disposal:
Incinerator solves disposal problems at Rockford Screw, 2/17, p.65

Waste Treatment:
Battelle's Dr. Faust: Pollution control influence on platers' water decisions, 6/16, p.52
Liquid waste elimination 'hot' system in pollution control equipment, Pickands and Prenco, 6/23, p.48
Sulfuric pickling-spent liquor disposal: Chemical recovery system (KSF) used at B&W, 3/10, p.53
Waste treatment system designed by Parker for Roll Coater Inc., 1/27, p.52k*

Water Pollution:
Cleveland pressures steelmakers, harbor dredging, 3/17, p.21
Cleveland jumps to beat water pollution, Martin, dir., Clean Water Task Force, 4/28, p.124b*
Interlake accepts Interior Dept. grant to build control system, 2/10, p.40b*
Soviets clean Volga with purification plants along river's banks, 6/23, p.25

Watervliet Arsenal:
Benet Lab: Electropolishing and electrodeposition reports, 5/19, p.30

Weighing, Scales:
Portable electronic scale weighs vehicles in motion, 1/27, p.23

Welding Industry:
Weldermakers brace for winds of change, STEEL Feature (welding equipment and supplies)—effect of mergers, 'orphaned equipment,' 1/27, p.29

Welding Equipment:
Coil fed welders, Wausau Iron Wks., 5/12, p.52b*
Continuous wire electrode: Linde manager tells how welding wire is better, 4/7, p.52d
Electrode costs-prices, 1/27, p.30
Improvements announced by Linde and Airco (plasma arc torch, wire feeder), IE, 1/6, p.134
Nonconsumable electrode technique, joint dev. of Westinghouse and Colt, 6/23, p.25

Welding Institute (England):
Technique eases aluminum weld, 4/14, p.25
Titanium toughens weld metal, 6/16, p.18

Welding (Arc):
Automatic programming of tungsten inert gas shielded welders, French report, 4/7, p.24a*
Submerged arcwelding handles tough stainless weld job at Lukens, 2/10, p.56c*

Welding (Electron Beam):
Army attack helicopter, EB welded rotor, 5/19, p.36n*
Developments in EB predicted by Fansteel, 3/24, p.16
EB welder repairs jet engine blades, 1/13, p.14
EB welder aims at volume targets: Mech-Tronics (Fansteel) new 30,000 volt EB gun ready soon, 4/7, p.30
EB welding sweats market break (STEEL Feature), growing use by automakers, 4/21, p.29
EB welding clinches GM's ball joint production, 6/16, p.37
Patented heat control solves problem at Atlas Chemical aerospace div., 3/24, p.92b*
Sealing delicate capsule via EB welding, Atlas Chemical, 1/6, p.100c
Second-rate tooling can strangle EB welding, 6/9, p.48c*

Welding (Inertia):
Caterpillar puts twist into (inertia) welding, 1/13, p.30
GE's giant (spin weld) inertia welder soon may aid in Space Age gas turbine engines (principle involves friction heat), 4/14, p.53
GE inertia welding on jet rotors, 2/24, p.18

Welding (Laser):
Long laser leads welding race: Report of Banas, senior scientist at United Aircraft lab, 5/12, p.56†

Welding (Plasma):
Plasma arc cuts under water, Czech firm, 6/16, p.19

Welding (Resistance):
Joining edges of dissimilar metal strip for auto trim, 5/19, p.62†

Welding Show:
AWS annual expo: Refinements in art of joining metals via welding, 4/28, p.29
Scrap antique weld tests, author (Chang) urges, 5/5, p.32m*

Welfare & Protection Program:
Manager approach to presenting program: Persuasion is modern muscle, 6/23, p.47

West Coast Metal Importers Assn.:
Denounce import quotas, prefer voluntary cutbacks, 1/13, p.11

Wire Coils:
Cold former cleans stock, 6/2, p.23

World Corporations:
Barber (IP&P) urges UN charter to legitimize world status, 3/24, p.21

World Trade Center:
New York center gets Honeywell computerized system, electronic weathermen, 5/19, p.30

Wright-Patterson Air Force Base:
New materials need automation: Dr. Lovelace, 6/9, p.23

X

X-Ray:
Atoms in motion shown in X-ray and TV team, 2/10, p.40c*

Z

Zinc:
Foamed zinc for energy absorbing uses, Foam-Alum, 1/6, p.63

Zinc Anodes:
Zinc ribbons around wall of construction site, welded to tiebacks keep wall from collapsing, World Trade Center, 2/3, p.59

Zinc Institute Inc.:
Kimberly forecasts 1969 prospects: Plastics promotion or not, zinc outlook colored pink, 5/5, p.32b*
Survey of continuous galvanizing and aluminizing lines in U. S. and Canada, 1/20, p.29

COMPANY INDEX

A

AIM Companies Inc.:
Agreement to acquire Viking Drill and Reltool, 6/30, p.15

AMF Thermatool Inc.:
Dual metal brightwork on cars (stainless over galvanized) trims costs, 6/30, p.14

API Corp.:
EB weld repairs jet engine blades, 1/13, p.14

Abar Corp.:
Bolted heating element, IE, 6/30, p.53

Abbey Etna Drawbench Co.:
Features of production drawbench for B&W, IE, 1/20, p.73

Abex Corp.:
Denison coining press features, IE, 4/21, p.71

Abrasive Products Inc.:
Acquired by Michigan Abrasive, 1/13, p.15

Acheson Colloids Co.:
Applications of dry film lubricants increasing, guidelines compiled to aid engineers in selection, 2/3, p.58
Cost conscious evaluation of forging lubes, 3/10, p.27
Dry film lube (Emralon) used every five years only for jukeboxes, 5/5, p.48f*

Acme Mfg. Co.:
Wheel rim finishing with automatic unit, IE, 6/30, p.53

Advance Foundry Co.:
Largest casting made by full mold process, 6/16, p.44b*

Aerojet-General Corp.:
Application of filament winding tested for aircraft wing, 1/27, p.22
Computerized vacuum deposition system produces microcircuits, 4/21, p.45
Gusman: Asks realistic risk/profit appraisal, government procurement practices, 5/12, p.52a*

Air Products & Chemicals Inc.:
Buy rather than make your annealing gas: Marchiando report, 4/14, p.56
Plasma welding system easy to operate, IE, 4/21, p.71

Air Reduction Co. Inc.:
Acquires Aaronson, 5/5, p.24
Cover pic (Kunkler): Contrasts modern and ancient welding tools, 1/27
Electron beams aid steelmaking, new process, 6/23, p.19
Electron beam melting purifies alloy steels, Airco Temescal Div., 6/30, p.30
Welding equipment improvements (wire feeder designed for auto work), 1/6, p.134

Ajax Electric Co.:
Dev. mechanized quench, heat treats computer parts at National Cash Register, 2/24, p.44c

Ajax Magnethermic Corp.:
Heavy duty induction heating unit, IE, 4/21, p.69
Latest inductor has double melt power, IE, 6/9, p.74

Alcan Aluminum Corp.:
Activities in automotive field, Trigg and Smith report, 5/5, p.13
Trigg: Aluminum markets keep expanding, 6/16, p.21
Wood grain coil more competitive with colors, IE, 3/3, p.76

Alcan Aluminium Ltd.:
Builds aluminum smelter near Salvador, Brazil, 4/14, p.29

Algoma Steel Corp. Ltd.:
Begins production of primary stampings for auto industry, 5/12, p.27

Allegheny Composite Corp.:
Composite strip rolls up savings in auto trim, 5/19, p.62†

Allegheny Ludlum Steel Corp.:
Acquisition of Jacobsen Mfg. begun, 4/21, p.22
Ahlbrandt addresses Pittsburgh executives: Warns on 'money managers', merger takeovers, 2/24, p.16

Allied Machine Tool Systems:
Contouring attachment trims machining costs, 1/6, p.100a

Allis-Chalmers Mfg. Co.:
Data storage and retrieval system: Way to pop paperwork balloon, 3/17, p.52
Electric lift truck needs little headroom, IE, 6/2, p.98
Jaw crusher handles large volumes of ore, IE, 2/24, p.65

Alloys Unlimited Inc.:
Acquires Bissett-Berman, 1/27, p.20

Altamil Corp.:
Merger with Stanray discussed, 4/28, p.23

Aluminum Co. of America:
Alloy 7175 strengthens aluminum forgings, 1/6, p.100n*
Are you prepared for noise laws? Haluska, 2/17, p.41
Aluminum powder metal parts development program to be presented at Powder Metal conference, 4/28, p.21
Aluminum P/M parts market opens up, metalworking trendline, 5/12, p.33
Aluminum radiator production, furnace brazing in dry-air, little flux, 1/20, p.11
Aluminum radiator fabricating method, 3/31, p.9
Building major research building, Technical Center, Merwin, Pa., 4/28, p.23
Sales show on road (Trailblazer), 2/24, p.17

Aluminum Mill Products Inc.:
Irrigation tubing: Lube is key to aluminum extrusion economies, 2/24, p.37

Amax Aluminum Mill Products Inc.:
Opens aluminum sheet mill at Joliet, 6/16, p.21

Amchem Products Inc.:
Conversion coatings put on by reverse rolling, IE, 3/10, p.96
Liquid phosphate coats metals, IE, 6/30, p.53
Missionaries (specialized selling) pave way to more profitable selling, Metalworking Chemicals Div., 5/12, p.39

American Chain & Cable Co. Inc.:
Multielement cable resists fatigue, IE, 1/27, p.72

American Gun Drill Corp.:
Size range of fast feed gun drills, IE, 4/7, p.70

American Hoist & Derrick Co.:
Merger with National Swage Tool, 1/13, p.14

American Machine & Foundry Co.:
Approves merger of Harley-Davidson Motor, 1/20, p.17

American Metal Climax Inc.:
Donahue: Joint venture beneficial, 6/23, p.40

American Motors Corp.:
Hornet to replace Rambler, 6/16, p.17
McNealy: Midyear car customized, SC/Rambler, 6/23, p.13

American Pullmax Co. Inc.:
Advances cited in nibbling, shearing, IE, 3/31, p.76

American Ship Building Co.:
Steinbrenner: Great Lakes shipbuilders want work — new or used, 4/14, p.43

American Smelting & Refining Co.:
Zinc ribbons keep perimeter wall around construction site of World Trade Center from collapsing, 2/3, p.59

American Standard Inc.:
Hydrostatic extrusion methods, 2/24, p.25

Amsted Industries Inc.:
South Bend Lathe aims for NC, 3/24, p.17

Anaconda Co.:
Electrolytic copper refinery for Chile, 2/3, p.21

Anaconda American Brass Co.:
Expands Buffalo mill, 2/24, p.17
Tube mill scheduled for Franklin, Ky., 3/24, p.17

Anaconda Wire & Cable Co.:
Selected for job of wiring linear accelerator (electron microscope near Menlo Park), Hypalon-covered Unicon cable used, 3/31, p.56e*

Anlam Electronics:
Electronic measuring and readout, IE, 2/17, p.113

Anocut Engineering Co.:
Acquisition by Brown & Sharpe completed, 3/3, p.24
ECM power supply units, IE, 2/3, p.79

Apex Broach & Machine Co.:
Wrench flats shaped faster with broach, IE, 6/16, p.63

Arco Industries Corp.:
Acquires Haas Corp., 2/17, p.27

Armco Steel Corp.:
400 stainless free of titanium, 1/27, p.41
Acquires interest in Spanish firm, 1/27, p.20
Ashland Wks. plant performance studied by task force, 4/28, p.41
Billman: Unions must recognize foreign competition in collective bargaining, 6/23, p.23
Buys continuous caster, 4/28, p.23
Buys rather than makes annealing gas, Ashland Wks., 4/14, p.56
Continuous annealing and coating line for cold rolled nonoriented silicon steel, installation at Butler, Pa., Works, 3/3, p.56f* and 4/7, p.48†
Demand for residential construction outruns skilled labor, solution is pre-engineered units, survey, 1/20, p.35
Discontinues welded pipe, conduit, 2/10, p.21
Electrocoating process, Color-Grip, 6/16, p.24
Enters fastener market, acquisition of Sheffield Steel and its bolt and nut mfg. plant in Kansas City, report of Geo. Hansen, 6/16, p. 24
Plans to invest in Telic Corp., 1/13, p.14
Robertson: Growth rate for U. S. economy spells good news, 6/9, p.22
Stainless steel auto racer, 2/24, p.17
Student Design Program, covering ocean hardware, 3/3, p.25
Technical sales training course at Baltimore designed for women, 6/2, p.21
Verity: Steel needs new image (AISI speaker), 5/26, p.30

Aro Corp.:
Logic sensing mechanism — pressure level in screw tapper, IE, 2/10, p.58

Arrow Tool Co.:
Affiliates with Numerical Control & Computer Services, 5/19, p.27
Small NC job shop gets payoff from in-house computer, 2/17, p.59

Athlone Industries Inc.:
Merges Jessop Steel, 5/19, p.27

Atlantic Steel Co.:
Strike ends, 3/17, p.71

Atlas Chemical Industries Inc.:
Electron beam welding seals delicate capsule, 1/6, p.100c
Patented heat control solves EB welding problem, Apollo program, 3/24, p.92b*

Atlas Press Co.:
Clausing vertical mill, heaviness helps upgrade, IE, 5/12, p.94

Auburn Ball Bearing Co.:
Sold to Knowlton, 2/24, p.18

Austin-Hastings Co. Inc.:
Behrens NC punch press rated at 25 tons, IE, 4/28, p.108a

Autoclave Engineers:
Isostatic press handles shapes, IE, 1/20, p.76

Automatic Sprinkler Corp. of America:
Military containers ready for Army: Firm eyes commercial markets, 6/9, p.48b*

Automation Industries Inc.:
Heat flow serves as NDT medium, IE, 2/3, p.79
Nondestructive test engineering service, 2/17, p.27
Nut inspection system, IE, 3/17, p.86
One cast iron shell checked in 6 seconds via magnetic particle approach, 4/28, p.124f*

Avco Corp.:
Fluidic stacking machines, may sort mail, 4/21, p.22

B

Babcock & Wilcox Co.:
Carlson speaks at ABMA: Imported boilers next step? 2/3, p.18
Century-Detroit: Internal grinder built for Watervliet Arsenal, IE, 1/6, p.139
Sulfuric pickling wastes—disposal system (chemical recovery) installed by KSF, 3/10, p.53

Bailey Meter Co.:
Installs gas mixing stations at Armco Ashland Wks., 4/14, p.56

Baldwin-Lima-Hamilton Corp.:
Standard Steel: Computer printout gives fast, accurate quotes, 1/13, p.28

Bath Co., Cyril:
Stretch forming press lengthens aluminum sheet, 4/14, p.25

Bell & Howell Co.:
Photo Products Div.: Computer-monitored diecasting, 5/26, p.26

Bellows-Valvair:
Acquires worldwide marketing rights to GE fluid logic devices, 5/12, p.21

Bendix Corp.:
Acquires American Abrasive, 5/19, p.27
Acquires Buhr Machine Tool, 4/14, p.23
Adaptive control fits profile mill, IE 6/9, p.75

Cordax measuring machine: To make NC tape—move probe, 1/13, p.56d* and 3/3, p.47†
Cordax, computer controlled measuring, 5/5, p.23
Gaging system displayed at ASTME show, IE, 4/28, p.148
Internal or external plunge grinders for forming workpieces, Automation & Measurement Div., IE, 2/24, p.63
Laser eases, speeds measuring, Automation Div., IE 5/26, p.70
X-ray gage for tube wall thickness, IE, 2/17, p.113

Best Steel Corp.:
Automated conveyor / stackers, 1/27, p.52g*

Bethlehem Steel Corp.:
Automated sawing systems installed at Saucon Wks. structural mill, 1/6, p.100h*
Building reinforcing bar fabricating shop in Va., 5/19, p.25
Burns Harbor, more capacity planned, 4/28, p.21
Burns Harbor Wks.—$4 billion yet to come, 5/5, p.30
Computer to process orders, 2/17, p.21
Develops a high strength, interlock piling SP 7b, 1/6, p.100k*
Fear of change is big problem in modernization program, installing BOF and computer controlled rolling mills, 6/30, p.11
Profile gage dev., measures strip thickness, 6/2, p.29
Raises prices on hot rolled sheets, bands, 2/10, p.47
Sparrows Point pier plans changed, 2/17, p.25
Shipbuilding facility, Sparrows Point, 2/24, p.22
Steel sheet emerges from zinc bath on galvanizing line (coated steel), cover pic, 1/20, p.29
Steelton Wks gets electric furnaces, 6/9, p.25

Birdsboro Corp.:
Automated sawing systems designed for Bethlehem structural works, 1/6, p.100h*

Bissett-Berman Corp.:
Merged, 1/27, p.20

Blake Co., Edward:
Vibratory finishers lined with PVC, IE, 1/27, p.72

Boeing Co.:
Aerospace technology targets: Increased use of titanium depends on better metalworking techniques says George Martin, 3/17, p.51
Lists advances needed for titanium (EB welding, cold forming) 3/31, p.24a*
TIE System, display systems to speed decision making (teleservice for board meetings), 2/3, p.32
Titanium forming, airframe components, new approaches, 5/12, p.32a*

Bolce Gages:
NC makes measuring system automatic, IE, 4/28, p.108a

Bolt Beranek & Newman Inc.:
Allen: Muffling noise in shop or office may amplify production, 6/2, p.72d*

Border Steel Rolling Mills Inc.:
Concast machine order placed, 3/3, p.24

Borg-Warner Corp.:
Forms German firm, 5/12, p.27
Marbon to market plated plastic parts with M&T, 6/23, p.21
Merger with Stephens-Adamson, 3/10, p.23

Boston Digital Corp.:
Tape controlled mill can handle 3D shapes, IE, 5/5, p.77

Boston Gear: See North American Rockwell

Bozung Co., J. A.:
Bender of tubular metals, by hot or cold methods (built by Pines), 2/24, p.44b

Branson Sonic Power Co.:
Ultrasonics ease thermoplastics assembly, IE, 1/13, p.57

Bridgeport Plating Co.:
Plated plastics ripe for furniture, auto markets, 3/31, p.56f*

Bristol Brass Corp.:
Acquires New England Centerless Grinding, 1/13, p.14

British Steel Corp.:
Remelt cuts sheet steel analysis time, 3/10, p.26
Seven year plan—fewer men to produce more steel, 3/24, p.13
To boost productivity, 2/17, p.27

Brown & Sharpe Mfg. Co.:
Agreement to merge with Anocut, 2/17, p.27; merger completed, 3/3, p.24
Automatic screw machine, IE, 1/13, p.58
NC models add 15 tool positioner, IE, 3/10, p.96
Surface grinder added, IE, 6/9, p.78
Validator—new measuring machine, 3/17, p.35

Bucyrus-Erie Co.:
3-mile long cable used at mine (dragline used by Central Ohio Coal), 2/17, p.88e*
Big Muskie, giant shovel for surface mining coal and land reclamation work, 6.23, p.25

Buhr Machine Tool Co.:
Acquired by Bendix, 4/14, p.23

Bunker-Ramo Corp.:
Adaptive control dev., machine tool spindles, 5/5, p.21

Burgess-Norton Mfg. Co.:
3,000 tons compacting press slated, 3/17, p.42

Burgmaster Div.: See Houdaille

Burlington Steel Co.:
Continuous casting machine, 2nd from Concast, 5/26, p.27

Butler Mfg. Co.:
Topless shear setup dev. by Roller Shear, 5/12, p.55

C

CF&I Steel Corp.:
Acquires Silver Eng. Works, 1/27, p.20
Adds to Pueblo Works, 1/13, p.16
Contracts awarded for bar mill at Pueblo, 5/19, p.27

Cal Metal: See D&F Industries

Carborundum Co.:
Backs Negro firm: Niagara Urban Industries Inc., 4/14, p.23
Organic fiber (Kynol) absorbs heat, 4/14, p.29
Pump moves molten lead, IE, 5/26, p.75
Video tape instant replay: Modern management—smile, you're on video tape, 1/13, p.34

Carman Industries Inc.:
Bulk shrinker eases handling, densifier compresses material, 5/5, p.52

Carmet Co.:
Carbide coat wearproofs metals, 4/7, p.45† and 4/21, p.52b*

Carpenter Technology Corp.:
Acquires Gardner Cryogenics, expands interest in specialty materials, 6/23, p.27

Cascade Steel Rolling Mills Inc.:
Pacific Northwest gets steel mill, 6/23, p.27

Casting Engineers:
Minicast process to produce small intricate parts—plastic patterns, 1/6, p.100

Caterpillar Tractor Co.:
Automated hoists, plating setup at Joliet plant, 3/10, p.60
Caterpillar puts twist into (inertia) welding, 1/13, p.30
Inertia welder for jet rotors, installed at GE, 2/24, p.18
Hard-core training, 6/2, p.32a*
Total cost bidding gains momentum (Hughart report), 2/3, p.15

Central Ohio Coal Co.:
Mine uses three mile power cable to electrify dragline that reaches 310 ft., 2/17, p.88e*

Century Automation Inc.:
Formed in Los Angeles, 3/31, p.19

Century-Detroit: See Babcock & Wilcox

Century Sales Corp.:
Dual spindle pressure boring unit trepans and gun drills, IE, 4/7, p.72

Cerro Corp.:
Merger with Standard Oil (Ind.) abandoned, 5/26, p.27 and 6/16, p.20

Cerro Copper & Brass Co.:
Low melting point alloys, markets grow, 2/24, p.44a

Certified Alloy Products Inc.:
To produce vacuum melted nickel and cobalt base superalloys, 1/20, p.17
Builds vacuum induction melting facility for melted alloys, 2/3, p.57

Chandler Evans Control Systems: See Colt Industries

Char-Lynn Co.:
Hydraulic motor line's efficiencies, IE, 3/31, p.76

Chesterton Packings & Seals Co.:
Sales course set up in Rome (the Appian way), 5/5, p.48q*

Chrysler Corp.:
Airtemp to electrocoat air conditioner parts, 3/10, p.15
Auto wheel brake cylinders checked in test fixture, 4/28, p.25
Black truck drivers recruited by other blacks, 6/9, p.21
Capital expenditures goal for '69, 1/13, p.12
Heinen: Air pollution decreasing, 6/30, p.7
Plastic grilles on '70 models, Valiant and Dart, 3/31, p.19
Super-Lite, conflict with safety regulations, 4/21, p.13

Cincinnati Milling Machine Co.:
Adds vertical profile milling machines, IE, 1/6, p.142
Bilevel foundry built in Britain (Tamworth), castings for machine tool construction, 3/24, p.30
EDM handles four at a time, aluminum turbine impeller blades, 3/10, p.27
EDM power supply fast with fine finishes, IE, 3/17, p.88
Two turrets key to production ability, 1/27, p.70

Cincinnati Shaper Co.:
1,000 ton P/M compacting powder press, IE, 3/17, p.85
Hydraulic press brake forms and stretches at same time, IE, 6/30, p.52
Hydraulic shears, IE, 4/21, p.70
Metal separation systems, IE, 1/13, p.57

Cincinnati Steel Treating Co.:
Heat treat furnacemaker charts economies of scale—buys 72 cu ft gas fired, integral quench furnace from Lindberg, 1/20, p.36

Cleereman Machine Tool Corp.:
Drilling unit made for hydraulics firm, IE, 6/30, p.51

Clevite Corp.:
Merger plan with Gould-National Batteries, 3/17, p.29; approved, 6/30, p.15

Colt Industries Inc.:
Chandler Evans: Oil-quench-in-vacuum furnace: Door to creative heat treating, 4/7, p.46
Lobb (Crucible): Voluntary quotas unworkable, 2/10, p.13
New management team (Strichman, chairman): Colt's turnaround gains momentum, 2/10, p.23
March heads Crucible operations, 5/19, p.25
P&W micrometer for direct gaging, IE, 5/19, p.102
P&W NC jig borer has 'center' capability, IE, 2/17, p.106
P&W receives orders for adaptive control profilers, 3/3, p.17
P&W signs tool pact with Swiss firm, 1/13, p.15

Comalco Industries Pty. Ltd.:
Aluminum smelter to be located in Bluff on South Island, 1/27, p.52f*

Commercial Metals Co.:
May acquire Home City Iron & Metal Co., 2/3, p.76

Consolidated Diesel Electric:
Amphibious vehicles, Vietnam industrial fallout, 2/3, p.45

Continental Machines Inc.:
Adhesive bonding less costly procedure, 6/9, p.48c*
Loctite adhesives lock spindles on precision grinder, 4/7, p.45† and 4/21, p.52b*

Continental Ore Corp.:
Luxembourg ferroalloy plant a joint venture, 6/2, p.29

Control Data Corp.:
Computerized purchasing boosts on-time delivery: Order entry and retrieval system, 6/9, p.48a*
Laser welds, cuts, drills, trims, marks, 3/17, p.85

Controlled Power Corp.:
Electrocoaters intrigued by a modular power package, 3/10, p.13
Heat sink design, 3/17, p.25

Conzinc Riotinto of Australia Ltd.:
Worca process at smelter, 4/7, p.18

Copperweld Steel Co.:
Copperweld double scarf billets for hot rolling mill, 3/24, p.28

Cross Co.:
Automatic mfg.-assembly system for Chevrolet: Disc brakes at 1,600 per hour, 3/10, p.56
Batch machining, Mod V system, cover pic, 5/19

Crucible Steel: See Colt Industries

Cunningham Co., M. E.:
Hydraulic press marks shapes of components, IE, 2/24, p.64

Curtiss-Wright Corp.:
Backs up Lockheed in extrusion of wing panels, Metals Processing Div., 1/27, p.44
ECM unit-triple headed installed at N. J. plant saves in capital costs, 5/19, p.51

Cyclops Corp.:
Abandons plan to merge Sharon. Justice Dept. action, 2/17, p.25

D

D&F Industries Inc.:
NCR computer, Cal-Metal Corp. Div., uses in production control, job cost applications, 5/26, p.46

Dana Corp.:
Rotary carrier on disc grinder holds six shafts, 4/21, p.52b* and 4/7, p.45†
Turbine trucks tested, 6/2, p.15

Denison Div.: See Abex

Detroit Hoist & Machine Co.:
5 ton electric hoist, IE, 3/17, p.86

DeVlieg Machine Co.:
54K Jigmil, IE, 4/7, p.70

Dexter Automatic Products:
Automated brazing machine built by Fusion, 1/27, p.52g*

Diebold Computer Leasing Inc.:
Overseas venture, France, 4/7, p.19

Diebold Group Inc.:
Computer treminal costs to drop, study completed, 6/23, p.32

Digital Equipment Corp.:
Computer speeds up spectrogram analysis of high alloy steels, 1/6, p.100
Programmed digital processor-12, general purpose unit, 1/27, p.22

Diversified Technologies Inc.:
Formed by Sinter Co., venture capital firm, 4/7, p.17

Divine Bros. Co.:
Several pieces shaped, finished in one pass, IE, 5/12, p.96

DoAll Co.:
Electronic height gaging system, Trans-Chek, IE, 4/14, p.123
Laser aligns, checks machine tools, IE, 6/9, p.73
Laser interferometer computerized, IE, 2/3, p.78
Options for toolroom grinder, IE, 6/23, p.77

Dominion Foundries & Steel Ltd.:
Building hot roughing mill, 4/21, p.24
Preventive maintenance: Cutting down on leaks in cooling system means cutting costs, 3/31, p.56b*

Dorr-Oliver Inc.:
Markets Kowa pelletizing chlorination process (fool's gold), 3/3, p.22

Dow Chemical Co.:
Barge ordered built for chemical service on Great Lakes and Mississippi, 6/30, p.14
Fast solvent analysis aids Los Angeles area, 6/16, p.60d*
Foams clay for insulation markets, 4/21, p.52h*
Herbert Doan: Social problems—don't expect miracles, 4/7, p.20
Napalm: Doan (president) defends decision, 1/20, p.43
Nucleate boil technique blasts parts clean, 3/31, p.24f*
Stretch leveler (from German firm) straightens 120 ft extrusions, 3/3, p.22

Dow Furnace Co.:
Atmosphere furnace heats 800 lb per hour, IE, 1/13, p.58

Dravo Corp.:
Builds BOF for Stelco, 4/14, p.23
Builds vacuum degassing vessel-king size, 5/5, p.23

Drillmation Co.:
NC bore-drill solves problem with stainless, IE, 6/2, p.98

Ducommun Metals & Supply Co.:
NC line shears bars, 5/5, p.22

Dun & Bradstreet Inc.:
Landry: Current money market has bill-paying stretched out, 6/23, p.30

Du Pont de Nemours & Co. Inc.:
Enamels and primers protect, beautify, IE, 1/6, p.139
Freon fluorocarbon solvent used with ultrasonics removes buffing compound from copper plated steel, 6/9, p.23

E

Easco Corp.:
Agreement to acquire aluminum facilities of Superior, 6/30, p.15

Eastern Stainless Steel Corp.:
Acquires Washington Aluminum, 2/10, p.19; 4/6, p.16
Agreement to acquire Borden Metal Products, 3/31, p.19 and 4/28, p.23

Eastman Kodak Co.:
Don Spear: Chemical milling gains acceptance, 3/31, p.46

Eaton Yale & Towne Inc.:
Chip processing and oil reclamation system, 2/17, p.88g*
Merges Tinnerman, 1/27, p.19
Truck loads high, fast, safely, IE, 5/12, p.92

Efficient Industries Corp.:
Hyson Div.: Nitrogen gas cylinders replace die springs for metal stamping, 1/20, p.72b*

Elmco Co.:
Acquired by Envirotech, 6/9, p.25

Electric Furnace Co.:
Vaughan: Heat treat equipment, industry report, 6/23, p.67

Enamel Products & Plating Co.:
Coats coil stock with polyimides, Teflon, IE, 1/20, p.76

Astro II, commuter car, tricycle car: One less fender to bend, 6/16, p.9
Auto midyear models presented, 6/23, p.15
Buick computer (IBM 1800) monitors machining operations at valve body line at Flint, 3/24, p.7
Buick 'probes' chip conveyors—downtime slashed, 5/5, p.43
Buick tests engines during assembly with compressed air, 3/17, p.23
Buys presses from Verson and Danly, 3/3, p.21
Cadillac—sweet smell of success: Werner predicts sales, 6/9, p.13
Chevrolet-Saginaw plant: Disc brakes zipped out at 1,600 per hour (Cross automatic system), 3/10, p.56
Chromed plastic auto grilles on cars, 3/17, p.25
Detroit Diesel Engine: Mid-1971—turbine age begins Truxell reports, 2/10, p.7
Drill resharpening method increases drill life, 5/12, p.23
EB welding clinches ball joint production, Saginaw Steering Gear Div., 6/16, p.37
Executive changes ahead (Estes, DeLorean, McDonald), retire-

ments due, 2/17, p.13
Fastener tester combined to computer, 4/21, p.19
Gasoline engines reported by Cole, 5/19, p.15
Gas turbine trucks scheduled, 6/2, p.13
Hydra-Matic Div., warm forming gets nod over cold forming (pinion blanks), 1/13, p.56a*
Management development approach described by Caserio, GMC Truck & Coach Div., 1/20, p.23
Manager—call him a systogrammer-1975, combination engineer-computer programmer: Olds (Truxell), 1/6, p.95
Management conferences, presentation via display systems, 2/3, p.32
Minicar XP 887: Materials, engine, engineering, etc., 2/24, p.9
Oldsmobile: Tool changing by phone tightens plant control (differential plant in Lansing), 3/3, p.36
Olds developed transmission controlled spark to reduce exhaust pollution, 5/26, p.25
Overseas growth foreseen by Roche, 6/2, p.21
Reorganizes for the '70s, 1/6, p.15
Roche addresses Ill. Mfgr. Asso.: Government and business must work together, 1/6, p.48k*
Special vehicles displayed at Tech. Center, experimental power, 5/12, p.27
Vendors to feel SPEARS point—source performance evaluation & reporting, 1/20, p.7

General Technologies Corp.:
Continuous casting to produce metal matrix composites, 3/31, p.24d*

Gerber Scientific Instrument Co.:
Cost pared on drafting machine control, IE, 5/26, p.76

Giddings & Lewis Inc.:
Gilman assembly system offers automated workstation, IE, 4/28, p.147
Gisholt chucker designed for dial-in control, IE, 4/28, p.142

Giddings & Lewis Machine Tool Co.:
Continuous production of multiple parts setups, IE, 4/28, p.142
Manual input on the way out? 2/3, p.27

Gilman Inc., Russell T.:
Module-Matic Gundriller maintains constant chip thickness, IE, 5/19, p.96

Gilman Engineering & Mfg. Co.: See Giddings & Lewis

Gisholt Machine Co.:
Chucker designed for dial-in control, IE, 4/28, p.142

Gilmore Steel Corp.:
Oregon Steel plant start-up: Test year for metallized pellets, 2/10, p.38

Gleason Works:
Automated machining center: A pinion gear every 1.27 minutes, 1/13, p.13
British tool steel eyed, 2/3, p.20
Gleason sets par for bars, system rates vendors, 3/17, p.44
How to produce pinions faster to be shown at preview of an automated manufacturing system to make hypoid pinion gears, 1/20, p.47

Glidden-Durkee Div. (Pimco Div.)
Article: Glidden coats coils with flexible enamel, 2/10, p.36

Goodrich Co., B. F.:
Synthetic (Reztran) new, 3/17, p.23

Goodyear Aerospace Corp.:
Paper tubes store small, odd-shaped stock steel, 5/5, p.52

Gorton Machine Corp.:
Gunderson addresses ASTME: Planned training — kickoff to productivity, 5/5, p.32a*
Total machining center at moderate cost, 3 axis NC contouring center, IE, 3/24, p.109

Gould-National Batteries Inc.:
May merge with Clevite, 3/17, p.29; approved, 6/30, p.15

Granite City Steel Co.:
Veeder reports complete computer control in hot strip mill, 2/10, p.40a*
Veeder: Time for adjustment of foreign trade policy, catch up game with other nations takes too long, 3/24, p.15

Grimm & Co., W. T.:
Merger trend increasing, 4/21, p.20

Grumman Aircraft Engineering Corp.:
A die quench forming process for Armco stainless dev., 4/28, p.27
A tracked air cushion research vehicle designed, 6/23, p.29

Gulf States Tube Corp.: See Michigan Seamless Tube

H

H. E. S. Machine Tool Inc.:
Lathe's fast indexing, automatic chucker, IE, 3/31, p.7

Haas Corp.:
Sold to Arco, 2/17, p.27

Hamilton Associates Inc.:
Vertical mill solves training, work needs, IE, 3/3, p.76

Hamilton Standard: See United Aircraft

Hamilton Watch Co.:
Photoforming, chemical photographic-chemical etching process forms thin parts, 4/14, p.70

Hampshire Equipment Corp.:
Jackknife accident elimination with tractor-trailer safety device, IE, 4/28, p.111

Hanna Mining Co.:
Merger talk with St. Joseph Lead, 3/3, p.24

Harrower & Thomas Inc.:
Harrower report to AMA: Make an informed friend of your stockholder, 5/5, p.20

Harshaw Chemical Co.:
Hard chromium process improves plating power, IE, 4/14, p.124

Havir Mfg. Co.:
Cylindrical ram feature of a 25 ton press, IE, 3/24, p.111
Production press features special feed, IE, 1/20, p.76

Heald Machine Co.:
Controlled force grinder of small parts, IE, 6/9, p.73
CF internal grinders play 'heavy' role, IE, 5/5, p.73
Tool changer for NC machining centers, IE, 2/17, p.106

Heidrick & Struggles:
Demand for executives climbs, 4/21, p.21

Hillyer Corp.:
NC machining center, IE, 5/19, p.102

Hitchiner Mfg. Co.:
Chandley speaks at ASTME: Investment casting developments, 5/5, p.23

Honeywell Inc.:
Acquisition proposed, Collins Radio, 4/21, p.22
Aims at controls market, equipment line VytroniK, IE, 6/30, p.51
Computer serves 48 users simultaneously, time sharer, IE, 2/10, p.57
Computerized 'weathermen' for N. Y. world center trade building, 5/19, p.30
Computer plant, Billerica, 6/30, p.15
Miniaturized instrumentation, 6/16, p.18
Minicomputer introduced, IE, 3/31, p.75

Honeywell-Auerbach Computer Services Inc.:
Formed by Honeywell and Auerbach, 5/5, p.24

Hooker Chemical Corp.:
Waste treatment system designed by Parker, dev. for Roll Coater Inc., 1/27, p.52k*

Houdaille Industries Inc.:
Agreement to merge Genesee Brewing, 2/3, p.19
Burgmaster baby: Bridge type, 8 spindles, IE, 5/5, p.73
Elevating carriage on Burgmaster machining center, IE, 4/14, p.123
Strippit hole punching center has 20 tool turret, IE, 5/19, p.99

Houghton & Co., E. F.:
Acquires American Cyanamid, 1/13, p.14
Quenchant curves dev. for heat treaters, team of metallurgists, 6/23, p.33

Humphreys Corp.:
Tafa Div.: Hydrogen heated with gas enthalpies—with induction plasma gas heater, 3/10, p.52b*

Hydro Molding Co. Inc.:
Nylon compound glass spheres on bobbins on computer printers eliminate molded parts rejects, 2/24, p.44a

I

Ideal Industries Inc.:
May merge with Warner & Swasey, 1/27, p.19; merger completed, 3/10, p.23

Illini Building Systems Inc.:
Reports metal building boom, 6/16, p.17

Indiana General Corp.:
Electromagnet for heavy mill duty, IE, 2/17, p.111

Industrial Mill & Supply Co.:
Digital speed control, IE, 4/14, p.123

Infocom Inc.:
NC tape preparation and data processing system, IE, 4/28, p.147

Ingalls Shipbuilding Corp.:
Litton shipbuilding facility in Pascagoula, 2/24, p.24

Ingersoll Milling Machine Co.:
EDM transistorized power packs, new line, 2/24, p.29

Inland Inc.:
Forms A. O. Smith-Inland, 3/10, p.23

Inland Steel Co.:
AA steel (accelerated aging): 'Instant aging' lends strength to sheet steel, 4/14, p.69
Acquisition prospects told stockholders, 5/5, p.21
Bar rolling plant purchased by Keystone, 4/14, p.23
Forming problem solved, soap and water, 6/9, p.23
Pollution tab: $50 million (Indiana Harbor to get recirculating water system), 3/31, p.17

Integrated Dynamics Inc.:
Adjustable cushioning on hydraulic cylinders, IE, 2/24, p.65

Interlake Steel Corp.:
Accepts water pollution grant, 2/10, p.40b*

International Business Machines Corp.:
COMATS: Computer operated manufacturing and test system at San Jose plant, 4/7, p.52f
Holograms processing, improved techniques, 3/31, p.20
Satellite system cuts IBM's costs: NC machining learned at Lexington, Ky., plant, 5/26, p.38
Solar 'flash' bonds composites, diffusion bonding joins boron filaments in matrix of titanium, 1/20, p.38* and 3/3, p.46†
Temperature sensors dev. at Solar Div.: Eyeball for the BOF, 3/31, p.19

International Nickel Co.:
Turbine alloy improvements, IE, 2/10, p.58

International Nickel Co. of Canada Ltd.:
Pacific island joint project (New Caledonia), 4/7, p.19

International Research & Development Corp.:
Monitor warns of excessive vibration, IE, 1/27, p.73

Iselin & Co., William:
Financing—factoring, world-wide basis, 3/24, p.13

J

Jackson Products Co.:
Universal transfer machine, arm lifts, moves, rotates parts, IE, 1/20, p.73

Jergens Tool Specialty Co.:
Marketing abroad, potentials claimed by Schron, 1/13, p.35

Jessop Steel Co.:
Merges with Athlone Industries, 5/19, p.27

Johansson Co., I. O.:
Tool changer at NC Center, IE, 1/6, p.140

Jones & Lamson: See Waterbury Farrel

Jones & Laughlin Steel Corp.:
Acquisition by LTV: Ling (chairman) counterattacks, rejects Justice's 'legal vivisection,' 4/28, p.37
Kaiser patent case (BOF) in Pittsburgh Court, 3/10, p.21
Research unpredictable behavior of blast furnaces, 2/17, p.25
Switch from 316 stainless at Fraser, 5/12, p.52s*

Joslyn Mfg. & Supply Co.:
Hungry hot dipper coats 10 ton parts, Empire Div., 4/21, p.46

Joy Mfg. Co.:
Unitized benefits added to compressors, IE, 5/26, p.70

K

KMS Industries Inc.:
Soluble oil may control ECM cuts, Hach (chemist) report, 4/28, p.109
Stilson joins KMS, 3/10, p.23

KSF Processes Ltd.:
Chemical recovery system for sulfuric pickling wastes at B&W, 3/10, p.53

Kaiser Aluminum & Chemical Corp.:
Forms firm in Jamaica, 3/17, p.27
Kaiser shares in German smelter, 3/3, p.23
Ready sees aluminum ingot price jump, 5/19, p.25
Urethane foam-aluminum, applied to metal sheets, 6/30, p.14

Kaiser Aluminum & Chemical Sales Inc.:
Aluminum mill products sales now made through franchised distributors: Kal-Fact, computer aided reporting system, 6/16, p.45

Kaiser Industries Corp.:
BOF patent battle still on (McLouth, J&L), 3/10, p.21

Kaiser Steel Corp.:
Annual survey of Western steel market, 5/19, p.79
West Coast expansion, Fontana steel plant reported by Borden, 1/13, p.15

Kanthal Corp.:
Nonmetallic heating element, IE, 3/17, p.90

Kaufman Mfg. Co.:
Expands line of lead screw heads, IE, 5/5, p.76

Kearney & Trecker Corp.:
Computerized factories foreseen: Trecker addresses L. A. Financial Analysts, 2/10, p.15
Haas: Considering NC equipment? Challenge old restrictions, 4/21, p.42
Milwaukee-Matic, automatic NC machining center, 3/3, p.17

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

Milwaukee-Matic also turns, features, 3/10, p.90
Milwaukee-Matic Modu-Line, IE, 6/2, p.90

Kearney-National Inc.:
Superform, cold drawing process, 2/24, p.18

Kennecott Copper Corp.:
Gas turbine trucks for copper mine, 6/2, p.13

Kentucky Electric Steel Co.:
Adding continuous-continuous casting unit from Concast, 5/19, p.27

Keydata Corp.:
Weisberg: Small computers key to integrated design analysis, 5/19, p.36j*

Keystone Consolidated Industries Inc.:
Buys Inland's bar rolling plant, 4/14, p.23

K[illegible] & Co. Inc., Walter:
What keeps a conglomerate company alive, 3/24, p.19

Kimray Co.:
Form relief grinder, IE, 4/21, p.72
Milling machine arbor saves on setup changes, IE, 1/27, p.72

Knowlton Co., M. D.:
Acquires Auburn Ball Bearing, 2/24, p.18

Kollsman Instrument Corp.:
Guidance signals flashed on car windshield (Head Up Display), 2/10, p.15

Koppers Co. Inc.:
Byrom: Advice to new executive in effective management, 6/30, p.15
Merges Swanson Lumber Ltd., 2/24, p.18

Kyle Engineering Co. Inc.:
Organized by negro engineer (Pacesetter), 2/24, p.43

L

LTV Aerospace Corp.:
Vought Aeronautics: Value analysis applies to plant engineering (Earl Clarke), 4/14, p.100a*

Laboratory Equipment Corp.:
Analyzes nitrogen and oxygen in metals, IE, 5/19, p.98

Lamb Co., F. Joseph:
Fab-Tec monitoring control system at Buick, chip conveyors downtime slashed, 5/5, p.43
Index table circles 8 sided column, IE, 2/10, p.59

Lamson & Sessions Co.:
Self-lock screw thread, IE, 2/10, p.58

Landis & Gyr Inc.:
Multirow bearings ups gear shaping speed, 1/6, p.100n*

Landis Machine Co.:
EDM unit, two-die gear finisher, IE, 4/28, p.108c
Headstocks adjustable on threader machine, IE, 1/6, p.141
Resistance welder horns minimize setup and tip change time, IE, 1/27, p.73
Roll finisher for gears up to 5 in., IE, 4/7, p.69

Landis Tool Co.:
Grinder handles sheet, plate rolls, 2/3, p.78

Laser Systems Inc.:
Laser drill big holes, applying special lens, 2/24, p.18

Latrobe Steel Co.:
Cast forging dies offer cost cutting, 6/2, p.32r*

Lear Siegler Inc.:
Teflon liner reduces friction, aerospace part, 3/10, p.60

LeBlond Machine Tool Co., R. K.:
NC chucking lathe (Tape-Turn CX) features tool changer, 2/24, p.15
Tool change doesn't interrupt lathe, IE, 3/3, p.74

Lectromelt Corp.:
Direct arc electric furnaces on order to Inland, 4/7, p.16

Leece-Neville Co.:
Merger agreement with Victoreen, 2/10, p.19

Lees-Bradner Co.:
Speedier thread milling chases production jobs, 2/3, p.34

Letco Inc.:
Two way system bends bar stock 180 degrees, IE, 2/10, p.62

Lincoln Electric Co.:
Coil fed welders for Wausau Iron Wks., 5/12, p.52b*

Lindberg Hevi-Duty: See Sola Basic

Linde:
Continuous wire electrode improvements: Avery tells how welding wire is better, 4/7, p.52d
Welding equipment improved, new plasma arc torch, long gas envelope, IE, 1/6, p.134

Ling-Temco-Vought Inc.:
Welcomes investigation of conglomerate mergers, 3/31, p.17
Ling (chairman) counterattacks, rejects Justice's legal vivisection (over acquisition of Jones & Laughlin), 4/28, p.37

Litton Industries Inc.:
Enters machine tool market: McDaniel chairman (why Litton loves machine tools), 2/17, p.54
Shipbuilding tech. know-how shared with Swedish, 1/6, p.63

Livernois Automation Co.:
Portable transfer dies cut costs, 6/9, p.48a*

Lockheed Aircraft Corp.:
Army cancels production of AH-56A Cheyenne, company appeals action, 6/9, p.30
Automatic drill for Trijet frame, 5/19, p.29
L-1011 trijet parts to be made in house, outside work too costly, 5/5, p.24
Landing gear subcontracts goes to England, 3/24, p.17
NC prepped for computer marriage—direct and central computer control of NC equipment, 3/24, p.32
Real-time inspection of component fabrication foreseen, 1/13, p.56b*
Wing panels via extrusion and machining, with back up from Curtiss-Wright, 1/27, p.44

Lockheed-California Co.:
NC unit inspects parts still in machine (X-Y-Z probe), Galaxy main frames, 1/6, p.100j*

Lockheed-Georgia Co.:
Oil filters used in jet engines cleaned ultrasonically, 1/27, p.52e*

Loctite Corp.:
Adhesives lock precision grinder toosened by vibration, 4/7, p.45†
Adhesive sets 3,000 psi bond in minutes, IE, 1/6, p.140
Automotive firm uses Loctite's adhesive bonding, 4/14, p.64

Logan Engineering Co.:
Automatic chucker pays on small runs, 2/24, p.32

Lucas Corp.:
Computerized monitoring system, 'watch over' 250 machine tools (England), 4/21, p.22

Lukens Steel Co.:
Buys continuous caster, 5/5, p.22
Electric melt shop control . . . computer takes on new chores, 3/31, p.43
Submerged arcwelding handles tough stainless weld job, 2/10, p.56c*

Lundquist Tool & Mfg. Corp.:
Disc drilling machine, IE, 2/24, p.65

Lykes Corp.:
Youngstown rejects merger move, 1/20, p.15
Youngstown merger set, 2/10, p.19
Youngstown merger approved, 5/26, p.26

M

M & T Chemicals Inc.:
Joins with Marbon to market plated plastic parts, 6/23, p.21

Mack Trucks Inc.:
Quality control program: Mack claims quality assets, 6/9, p.43

Magnaflux Corp.:
Particle testers, IE, 4/28, p.108a
Portable magnetic particle testing unit has current control, IE, 4/21, p.69
Ultrasonic system inspects by immersion, IE, 2/17, p.111

Mahler Associates Inc.:
Dr. Mahler: Managing for productivity, tips to ward off obsolescence, 1/6, p.80

Maichle & Wytmar Inc.:
Executive appointments upsurge, 2/3, p.17

Perforated stainless sheet steel may cloak jet noise, 2/10, p.31

Mannesmann A. G.:
Combine tube operations with Thyssen-Huett, 2/17, p.29

Marine Colloids Inc.:
Suspending agents solve problem slurries, IE, 1/13, p.59

Mayfran Inc.:
Chip processing system installed at Eaton, 2/17, p.88g*
Hydraulic chip remover, IE, 3/10, p.98

McDonnell Douglas Corp.:
Adhesive dev. for cryogenic temps., 6/23, p.29
Video tape use expanded, military program, executive presentations, etc., 5/5, p.32k*

McKay Machine Co.:
Strip welder reduces coil joining time, IE, 3/31, p.75

Mech-Tronics Corp.:
Acquired by Fansteel, 1/20, p.17

Menasco Mfg. Co.:
Giant C-5 gets support from 'bogie beam,' 6/23, p.48
Productivity bidding in buying machine tools, 3/3, p.24b*

Merlin & Gerin Foundries:
French foundry claims ultrathin castings, Precial technique, 3/17, p.49

Merriman Inc.:
Powder metal pistol produced on Cincinnati press, 4/14, p.69

Metachem Resins Corp.:
Metagrip epoxy bonds metals, glass, plastics, IE, 6/23, p.78

Metallurgical Service Inc.:
Stainless steel wrap shields heat treated parts, 4/14, p.70

Metco Inc.:
Metal spraying cuts costs of repairing worn journals, 2/3, p.57
Solid state control improves metallizing, IE, 6/2, p.94

Metlab Co.:
Quenchant curve for heat treating, 6/23, p.36

Michigan Abrasive Co.:
Acquires Abrasive Products and Atlantic Abrasive, 1/13, p.15

Michigan Foundry Supply Co.:
Baler for aluminum scrap, Hayliner, 1/13, p.12

Michigan Seamless Tube Co.:
Gulf States: Tailored tubing takes on bar stock, via extrusion, 1/27, p.52a*

Midland-Ross Corp.:
Joint venture with Korf Industrie, 1/27, p.20

Midvale-Heppenstall Co.:
Automated isostatic vessel compacts powdered material by applying pressure, 3/10, p.72e*

Milwaukee Gear Co.:
Spins used oil into cash, 5/19, p.54

Mimik Ltd.:
Tracer controls vs. NC, 5/26, p.46

Mission Mfg. Co.:
Mackenzie: NC lathe cuts costs on single part runs, 4/28, p.124f*

Monarch Machine Tool Co.:
Cutting corrugates strip: Flying die shear combined with automatic die propulsion unit, Stamco Div., 4/14, p.61

Motch & Merryweather Machinery Co.:
Acquires Rathbone Mfg., 6/2, p.23

Motor Wheel Corp.:
Soap and water for forming, 6/9, p.23

Mueller Brass Co.:
Expansion projects at Port Huron, and copper tube mill in Fulton, Miss., 1/13, p.15

N

NVF Co.:
Posner head — acquires Sharon Steel, financial backing for Penn. Engineering (packaged steel mills), 3/10, p.33
Takes over Sharon stock, 3/3, p.19; acquisition completed, 5/5, p.24

Naroiss:
Gage detects wear, corrects boring bar, IE, 4/28, p.147

National Abrasive Co.:
Abrasives are induction melted, 5/19, p.54

National Cash Register Co.:
Mechanized quench heat treats computer parts, 2/24, p.44c

National Electric Welding Machine Co.:
Aircraft welder used for honeycombed parts, IE, 4/7, p.72

National Lead Co.:
Taps Salt Lake, magnesium metals, 4/21, p.21

National Metal Processing Co.:
Scrap shredder installed, hammer mill erected, 5/12, p.86

Nationwide Industries Inc.:
Forms Nationwide Fastener Systems (warehouses on wheels), 3/24, p.25

Navan Inc.:
Plating process, diamond saw blades, IE, 4/21, p.71

New England Gear Works Inc.:
Acquired by Robbins & Myers, 3/3, p.24

Newcor Inc.:
Direct heating of metals—renaissance, 4/7, p.18
Speedy wire matmaker pairs welding, coiling, IE, 5/12, p.94

Newell Mfg. Co.:
Diversifies, new plant, 3/17, p.84

Niagara Machine & Tool Works:
Press brakes form outsize sections, IE, 1/20, p.74
Refinements on lines of power squaring shears, IE, 2/10, p.58

Niagara Urban Industries Inc.:
Negro firm—backed by Carborundum, 4/14, p.23

North American Rockwell Corp.:
AMSA efforts slowed, 6/16, p.19
Atwood: Speaks on criticism on defense contracts, military-industrial complex, 6/9, p.30
Bonding technique for helicopter rotor hub shown by Ernest Ljunggren, 3/17, p.50
Boston Gear: Modules tailor reducers to jobs, IE, 4/7, p.69
Moore, Aerospace & Systems Group: Faster technology pace demands change at top (management), 4/7, p.32
TMW Div.: AutoForge — molten metal to forgings on automatic machine, 3/17, p.31

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

North Star Steel Co.:
Orders second continuous casting unit from Concast, 6/30, p.15

Northrop Corp.:
Boron landing gear door tested on F-5 fighter aircraft, 1/27, p.22
Giant plastic stretch dies shape aircraft skins, 2/24, p.38
Ventura (Maura): Tomorrow's managers need more foresight, 4/7, p.24d

Norton Co.:
Agreement to buy Koebel Diamond Tool, 4/28, p.23
Atmosphere box furnace, IE, 5/19, p.98
Zirconia abrasive cuts grinding costs, 2/24, p.44c

Norton Research Corp.:
To make silicon carbide 'whiskers,' 1/13, p.56c*

O

Occidental Petroleum Corp.:
Willers predicts: Huge, 'homeless' corporations within 20 years, international corporations without a home office, 5/26, p.51

Ohio Rubber Co.:
Fendrich: Product managers spotlight, 1/6, p.92

Olin Mathieson Chemical Corp.:
Enters home building market, 1/20, p.13

Omark Industries:
Omark-Winslow automatic drill for Lockheed's Trijet frame, 5/19, p.29
Winslow Aerospace Tool: Computer controlled drill riveter-positioner system joins fuselage and wing sections on Grumman, 4/14, p.25

Oregon Steel Div.: See Gilmore Steel

Owens-Corning Fiberglas Corp.:
Kerivan forecasts usage of fibrous glass reinforced plastics, 5/5, p48k*
